Cannon Security Products to Showcase New Product Lines and a Modern New Look at SHOT Show 2022 in Las Vegas

Las Vegas, Nevada, January 2022- For the start of the New Year, Cannon Security Products will showcase several new product designs to their Cannon, Stack-on, and GunVault security storage lines at the 2022 Shooting, Hunting, and

Outdoor Trade Show in early January. The Cannon Security Products booth (#10916) for SHOT Show 2022 is located on the second floor of the Sands Convention Center. Attendees will experience a great new line with Cannon, branded with a new modern logo.

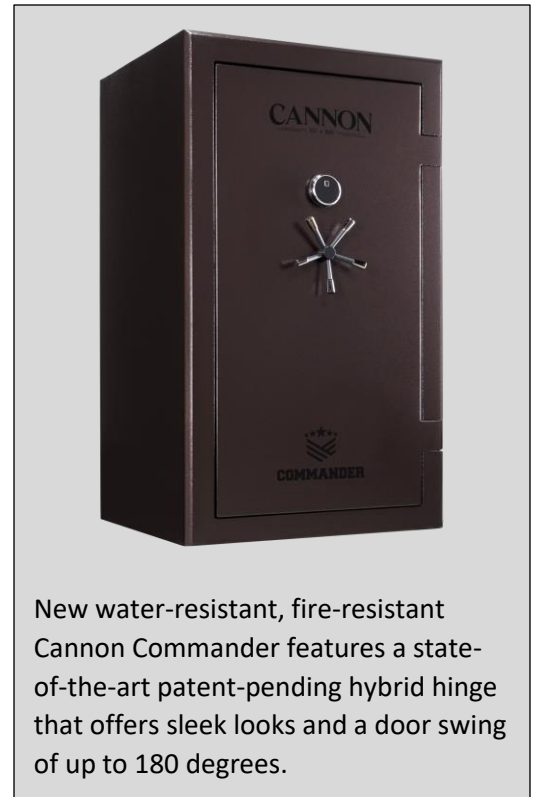

“The Cannon Logo goes back over fifty-years and is a well-known logo with tremendous staying power. The new Cannon Logo represents the brand as it continues to evolve with greater technology and modern designs,” says Peter

Wozniczka Cannon Security Products Sr. Director of New Product Development. This new logo represents elegance and fine craftsmanship without compromise, a promise made by the brand to create the best possible safe to protect your most prized possessions.

Leading the Security Storage Industry, Cannon Unveils a Top-of-the-Line New Product Series

Cannon has led the safe industry with revolutionizing models and technology since 1965. Along with their new logo reveal, Cannon is introducing a new top of the line series. Water and fire resistant, these new safes were designed with the customer needs in mind to protect valuables, keep guns out of the wrong hands, and keep cherished belongings through disasters and attempted burglary.

New water-resistant, fire-resistant Cannon Commander features a state-of-the-art patent-pending hybrid hinge that offers sleek looks and a door swing of up to 180 degrees.

“Cannon Security Products takes pride in developing products that help protect loved ones and valuable belongings so they can spend more time enjoying life.”

– Peter Wozniczka, Cannon Security Products Sr. Director of New Product Development

The new series, Cannon Commander is our full featured, unrivaled, top-of-the-line premium series. A great choice for gun storage or your most valuable keepsakes, Commander features a state-of-the-art patent-pending hybrid hinge that offers sleek looks and a door swing of up to 180 degrees. Equipped with an all-new dual access combination and biometric keypad, the Commander security features include

triple laminated hard plate lock protection, 1.25” x 4” locking bolts and a reloading device.

Fire protection starts with our triple fin intumescent seal built into the door provides the high-temperature heat shield that offers smoke protection from heat and fire for your valuables for up to seventy-five minutes. Commander is offered in various sizes to store up to 64 long guns.

New Stack-on Series Provides Affordable Options for Any Lifestyle

Stack-On has consistently developed solutions for its diverse array of customers across all active lifestyles. At SHOT Show 2022, Stack-On will unveil three new product lines to meet customer needs. New fire-rated protection units as well as new water-resistant products promise the extra protection from any disaster, including fires, floods and theft. Three new lines in various sizes can accommodate almost any space.

“Our broad array of products at this year’s SHOT show illustrates what matters to the customer as well as to us, said Wozniczka. “We design disaster-proof safes to protect in every situation—to preserve valuable possessions from flood, fire and natural disaster, from theft, and to protect loved ones from injury or

death caused by unintended access to firearms or medications.”

The first series to unveil, the Armorguard is a new design that comes in various sizes and can hold up to 46 firearms. Armorguard is sleek with all chrome hardware, soft-lined grey interior and a door organizer for pistol, documents, or small valuables. A thirty-minute fire resistant rating helps protect your valuables.

A new Total Defense Series will have a sneak peak of added design space, each model being fifty-seven inches tall. Adjustable shelving on one side offers even more flexibility and comes in various sizes to fit up to 72 firearms! Top and bottom locking bolts were added in the door for added theft security. Total Defense has a sleek modern look, this series features a 3-spindle handle, an electronic keypad with backup key, soft interior throughout with designer grey trim on the inside door pouches. With a 45-minute fire rating, and up to 14 days of water-resistant technology, Total Defense lives up to its name and offers enhanced organization and storage protection.

The New Stack-On Sovereign Series will also be unveiled at 2022 SHOT Show. This modern design stands at 59 inches tall to hold longer guns, adding more room on the adjustable top shelf. With a plush lined interior throughout, Sovereign has a 5 spoke handle with matte black hardware and a deluxe door organizer. An electronic keypad with a backlight offers easy owner access in lowlight areas. Additional shelf interior adds nice finishes to this design and can hold up to 72 firearms. Sovereign was designed to protect valuables in extreme disasters and boasts of being fire-resistant for up to 60 minutes and water resistant for up to 14 days!

Speed and Tact Counts with GunVault

Roughly 39 million people in the US purchased firearms in 2020 according to the National Shooting Sports Foundation. Whether taken from gun stores or from individual gun owners, a firearm is stolen every 2 minutes. These stolen guns are often diverted directly into illegal trafficking networks and end up being used in the commission of violent crimes. GunVault strives to provide ground-breaking solutions to keep handguns out of the wrong hands yet provide maximum access speed to your handgun! Faster. Safe. Tough. GunVault remains the leader in quick-access firearm storage with these new designs!

When every second counts in an emergency, GunVault designed the perfect storage device for security, speed and ready for use accessibility.

GunVault SpeedVault SV550-22 and SV350-22 are much-anticipated models in the firearm storage industry with their revolutionary spring-action slide-out door. New design and technology offer the slide-out door to slide out straight, offering a better quick-action position to your

SV550-22 The new SpeedVault door design offers more space for your firearm and two magazines as well as quiet and quick access.

GV350-22 above has a new spring-action, slide-out door that quickly delivers the enclosed handgun in ready-to-fire position.

firearm. The new SpeedVault door design offers more space for your firearm and two magazines as well as quiet and quick access. An electronic backlit keypad makes this design great for low-light situations.

The SpeedVault comes in two sizes; the SV350-22 offers a compact handgun storage with room for one magazine in the safe while the SV550-22 provides space for two magazines. Both models have predrilled holes and come with hardware to be secured beneath desks, bedsides, or wherever may be most convenient for you.

The Gunvault GV-22K is a portable handgun security case that also meets the TSA guidelines for handgun transportation. Made from 16-gauge steel, this key locked GunVault includes foam interior padding and is an inexpensive way to transport handguns anywhere outside the home. Its compact size is ideal for vehicles, luggage, and backpacks for concealed transport. This model can secure one handgun plus one magazine.

The GV RangeBox will be previewed at SHOT Show 2022. This heavy gauge steel electronic gunvault box resembles an ammo can, making transportation for handguns to and from the range easy and with low visibility. The GV RangeBox hold up to 2 handguns and 7 magazines. Foam liner protects the pistols from scratches during transport. A backlit digital keypad provides easy access in low lit situations and comes with a backup key.

About Cannon Security Products

Since 1965, CSP's brands have led the way in providing consumers with secure storage solutions. Its products are sold to major retailers across the United States under the Cannon Safe, Stack-On and GunVault brands, all of which are designed to fill unique consumer needs. The company operates manufacturing and distribution facilities in the U.S. and Mexico and has employees in multiple countries.
