

# **Sea Eagle 285 FPB Frameless Pontoon Boat**

## **Press Release: 5/20/09 Port Jefferson, NY**

### **NEW! The World's First Frameless Pontoon Boat!**

### **42 lb. Fishing Machine Sets Up in 4 Minutes & Goes Anywhere**

Unlike tubular frame pontoon fishing boats, the Sea Eagle 285 FPB sets up in just 4 minutes. This is because there are no parts to assemble. Simply roll out and inflate. That's only the beginning of this boat's great features. At 42 lbs. weight, it is super easy to carry and it packs easily in a nylon carry bag that will fit in any car trunk. Because it has a full floor, this one man fishing boat is completely dry – you do not need waders to use this pontoon boat. This boat can be either rowed or motored – it will take an electric motor or up 3 HP engine. Optional floorboard allows the angler to stand-up and cast. It comes equipped with 2 built-in rod-holders and 4 carry handles.

Easier to fish, easier to set up and easier to take down, this new 1 man fishing boat has everything that the angler needs to really catch the big ones.

Suggested retail is \$499. for the Deluxe Package with inflatable seat, stow pouch, oars, nylon carry bag and foot pump.

A Pro Package with all of the above and a motormount, swivel seat & floorboard is also available at \$699.
