

WALKBOX™

Horizontal Unloading System

SAFE

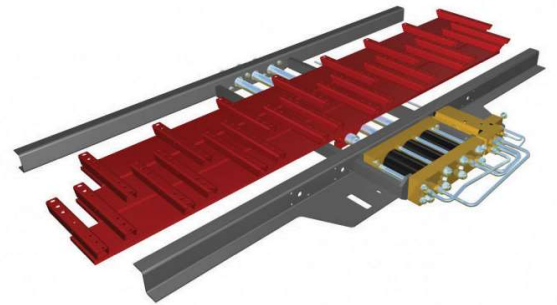

- Unloads horizontally. No tipping.
- Safely unloads under utility cables & trees.
- Can unload inside buildings.
- Saves your back. No shovel needed!

CONVENIENT

- Unload bulk, baled & palletized material.
- Fast & easy loading/unloading.
- Install on virtually any truck chassis.

PROVEN TECHNOLOGY

- KEITH has built *WALKING FLOOR*® unloaders since 1973.
- Hydraulic drive system is reliable & low in maintenance.
- *WALKING FLOOR*® unloaders are used worldwide.

► Powered by a M-Series Drive

The WalkBox™ unloader is ideal for landscaping, farming, nurseries, golf courses, maintenance and more. As the floor slats cycle, material is “walked” off the unloader.

HAUL & UNLOAD

Sand | Gravel | Mulch | Bales | Pallets

MANUFACTURING CO

WALKBOX™

Horizontal Unloading System

Installed on a truck chassis, the WalkBox™ unloader incorporates *WALKING FLOOR*® technology to “walk” material out the back of the truck utility body, with no tipping.

Specifications:

- Load Capacity: 5 Ton
- Speed: 0-8 f.p.m
- Recommended pump flow: 3-5 g.p.m.
- Maximum working pressure: 3000 p.s.i

Features:

Manual CleanSweep® Tarp System

Automatically sweeps material out. No need to clean out the box with a broom.

Cover Tarp

Quick & simple tarp keeps material inside the box when in transit.
