Vision Engraving & Routing Systems Partners with Vista Capital for Instant Financing Program

Phoenix, AZ: [Vision Engraving & Routing Systems](#) introduces a new instant financing program for qualifying customers, giving them the ability to make monthly payments on a new engraver or router at a fixed rate over time. The program allows customers to receive immediate notification of approval, and to make low monthly payments.

“Vision’s partnership with [Vista Capital’s](#) finance program allows our customers more accessibility to purchase a machine for little or no money down.” says Vision’s President Joe Ivanenok. “Vista allows an efficient and secure way for customers to receive instant approval. This will allow more customers the ability to experience our high quality machines.”

Vista Capital Corporation, an equipment financing company with over 20 years of experience, offers leasing terms from 12 to 72 months. For more information, go to <http://www.visionengravers.com/vista-capital.html>

Vision Engraving & Routing Systems is the largest engraving machine manufacturer in the USA. Building rugged, reliable, low-maintenance engravers and CNC routers, packed with industry-leading features, and offering them at competitive prices to provide the best value for their customers.
