

YANKEE HILL MACHINE

PRESS RELEASE

NEW FOR 2016:

**YHM M-LOK™ HANDGUARDS MR7 AND S.L.M. SERIES
IN STOCK AND AVAILABLE FOR IMMEDIATE SHIPMENT**

Following the successful release of YHM KR7 and S.L.K. KeyMod handguards and in response to customer demand, Yankee Hill Machine is proud to introduce our new line of M-LOK rails, providing the same lightweight durability with the added versatility of the popular mounting platform.

YHM M-LOKs are perfect for tactical, sporting or competition shooters alike. Choose from three different lengths: Carbine, Mid-Length or Rifle Length and two designs. For more mounting surfaces, select from the MR7s which can accept accessories at every 45 degrees. Or, for a slightly lighter option, opt for the S.L.M.s with mounting platforms at 3, 6 and 9 O'Clock positions.

Both lines feature a "T" marked extended top Picatinny rail, designed for a seamless transition from the Mil-Spec upper receiver.

The S.L.M.s and MR7s ship with all parts necessary for installation including a barrel nut, jamb nut, anti-rotation screws and installation instructions. Like all Yankee Hill Machine products, the new M-LOK handguards are proudly manufactured in Florence, Massachusetts and are covered by a lifetime warranty.

For more information on Yankee Hill Machine or the new YHM M-LOK lines, visit www.YHM.net or contact us at sales@yhm.net.

Follow us on social media for updates on new products including the soon to be released line of YHM M-LOK accessories.
