| Received an appreciation plaque from the Korean military division 31 2015 Entered construction and supply agreements of the GPR system with the Korean military division 53, regiment 00, battalion 3 Entered construction and supply agreements of the GPR system with the Korean military division 53, regiment 00, battalion 2 Supplied GPR system with the Korean military division 13, thrigade 00, battalion 00 Patented the respawn apparatus for survival games Entered export and exclusive sales contract agreements with GUNPOWER RUS in Russia Sponsored and provided support for broadcasting the MBC TV series, "Real Mer" Operated the simulation device equipped with a BB builted disturbing system Operated the simulation device equipped with a BB built disturbing system Operated the simulation device equipped with a BB built disturbing system Operated the simulation device equipped with a BB built disturbing system Operated the simulation device equipped with a BB built disturbing system Sponsored and provided support for broadcasting the SBS TV show. "Three Days" (March-May) Sponsored and provided support for broadcasting the SBS TV show. "Three Days" (March-May) Patented the infrared rays module: typs simulation device with distance adjustment Established the company's research center Quality Management System (SD 14001:2004) certified Environmental Management System (SD 14001:2004) | 2015 | | | | |
| 2015 Entered construction and supply agreements of the GPR system with the Korean military division 53, regiment 00, battalion 3 Entered construction and supply agreements of the GPR system with the Korean military division 53, regiment 00, battalion 2 Supplied GPR system with the Korean military division 31, brigade 00, battalion 00 Patented the respawn apparatus for survival games Exclusive contract with Supreme Play, France Entered export and exclusive sales contract agreements with GUNPOWER RUS in Russia Sponsored and provided support for broadcasting the MBCT V series, "Real Men" Operated aurving match event for the Korean Military army festival / Keiryong army festival Patented the simulation device equipped with a BB bullet disturbing system Operated aurving the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) Entered export and exclusive sales contract agreements with CQB in Taipel, Taiwan Entered aurying materials for the Central Police Academy Sponsored and provided support for broadcasting the SB TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the simulation device with distance adjustment Established the company's research center Quality Management System (SO 4001:2004) certified Environmental Management System (SO 4001:2004) certified Sponsored and provided | | | | | |
| Entered construction and supply agreements of the GPR system with the Korean military division 53, regiment 00, battalion 2 Supplied GPR system with the Korean military division 31, brigade 00, battalion 00 Patented the respawn apparatus for survival games Exclusive contract with Supreme Play, France Entered export and exclusive asias contract agreements with GUNPOWER RUS in Russia Sponsored and provided support for broadcasting the MBC TV series, "Real Men" Operated the simulation device equipped with a 88 bulled disturbing system Operated the GPR system for the TA hibrome Brigade context under the Special Forces Operated the GPR system for the Strahbrome Brigade context under the Special Forces Operated the GPR system for the Strahbrome Brigade context under the Special Forces Operated the GPR system for the Strahbrome Brigade context under the Special Forces Operated the GPR system for the Strahbrome Brigade context under the Special Forces Operated the GPR system for the Strahbrome Brigade context under the Special Forces Sponsored and provided support for broadcasting the BST TV show, "Three Days" (March-May) Sponsored and provided support for broadcasting the BST TV show, "Three Days" (March-May) Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 14001:2004) certified <td colspan="4"></td> | | | | | |
| Supplied GPR system with the Korean military division 31, brigade 00, battalion 00 Patented the respawn apparatus for survival games Exclusive contract with Supreme Play, France Entered export and exclusive sales contract agreements with GUNPOWER RUS in Russia Sponsored and provided support for broadcasting the MSC TV series, "Real Men" Operated the simulation device equipped with a BB bullet disturbing system Operated the simulation device equipped with a BB bullet disturbing system Operated the simulation device equipped with a BB bullet disturbing system Operated the simulation device equipped with a BB bullet disturbing system Operated the main event during the Robot Contents Under the Special Forces Operated the main event during the Robot Contents bow of Kyungnam Mobot Industry Foundation (for 3 days) Entered a supply agreement for the Sangiu-si Military Park in Kyungbuk province Supplied the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XIM's 'My Country Wants Me' (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games <td< td=""><td></td></td<> | | | | | |
| Patented the respawn apparatus for survival games Exclusive contract with Supreme Play, France Exclusive contract with Supreme Play, France Sponsored and provided support for broadcasting the MBCTV series, "Real Men" Operated a survival match event for the Korean Miliary army festival / Keiryong army festival Patented the simulation device equipped with a 8B bullet disturbing system Operated a survival match event for the Korean Miliary army festival / Keiryong army festival Patented the simulation device equipped with a 8B bullet disturbing system Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces Supplied training materials for the Central Police Academy Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (SD 9001:2008) certified Patented the korean-type combat simulation system for the military reserve force Patented the korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated ta survival game | | Entered construction and supply agreements of the GPR system with the Korean military division 53, regiment 00, battalion 2 | | | |
| 2014 Exclusive contract with Supreme Play, France Entered export and exclusive sales contract agreements with GUNPOWER RUS in Russia Sponsored and provided support for brackasting the MBC TV series, "Real Mer" Operated a survival match event for the Korean Military army festival / Keiryong army festival Patented the simulation device equipped with a 8B builet disturbing system Operated the GPR system for the 7th Airborne Bragade contest under the Special Forces Operated the GPR system for the 7th Airborne Bragade contest under the Special Forces Operated the GPR system for the Sanglu's Military Park in Kyungbuk province Supplied training materials for the Central Police Academy Sponsored and provided support for brackasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (SD 1001:2004) certified Sponsored and provided support for brackasting XTM's 'My Country Wants Mer' (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the survius I game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Contents Showin Changwon province Operated the main event of e-Sports in Suwon, Kyungki prov | | Supplied GPR system with the Korean military division 31, brigade 00, battalion 00 | | | |
| Entered export and exclusive sales contract agreements with GUNPOWER RUS in Russia Sponsored and provided support for broadcasting the MBC TV series, "Real Men" Operated the simulation device equipped with a BB bullet disturbing system Operated the simulation device equipped with a BB bullet disturbing system Operated the main event during the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) Entered a supply agreement for the Sanglu-si Military Park in Kyungbuk province Supplied training materials for the Central Police Academy Supplied the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 14001:2004) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's 'My Country Wants Me' (6 episodes) Operated the Structures for survival games Operated the Structures for survival games Operated the structures for survival games Operated the main event of e-Sports in Suson, Kyungki province Operated the main event of e-Sports in Suson, Kyungki province | | Patented the respawn apparatus for survival games | | | |
| Sponsored and provided support for broadcasting the MBCTV series, "Real Men" Operated a survival match event for the Korean Military army festival / Keiryong army festival Patented the simulation device equipped with a BB bullet disturbing system Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces Operated the main event during the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) Entered export and exclusive sales contract agreements with COB in Tajpel, Taiwan Entered export and exclusive sales contract agreements with COB in Tajpel, Taiwan Patented the simulation device for survial games Patented the infrared rays module: type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 1001:2008) certified Environmental Management System (ISO 1001:2004) certified Sponsored and provided support for broadcasting XIM's 'My Country Wants Me' (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the simulation system for the Robot Contents in Inje, Kangwon province Operated the similary agree to the Robot Contents Show in Changyon city Operated the main event of the Robot Contents Show in Changyon province Operate | 2014 | Exclusive contract with Supreme Play, France | | | |
| Operated a survival match event for the Korean Military army festival / Keiryong army festival Patented the simulation device equipped with a BB bullet disturbing system Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces Operated the main event during the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) Entered export and exclusive sales contract agreements with CQB in Taipei, Taiwan Entered a supply agreement for the Sanglu-si Military Park in Kyungbuk province Supplied training materials for the Central Police Academy Spensored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 1001:2008) certified Environmental Management System (ISO 14001:2004) certified Spensored and provided support for broadcasting XTM's 'My Country Wants Me' (6 episodes) Operated the structures for survival games Operated the survival game helmet Interchange of technology with the Unma | | Entered export and exclusive sales contract agreements with GUNPOWER RUS in Russia | | | |
| Patented the simulation device equipped with a BB bullet disturbing system 2014 Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces Operated the main event during the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) Entered export and exclusive sales contract agreements with CQB in Taipei, Taiwan Entered a supply agreement for the Sangju-si Military Park in Kyungbuk province Supplied training materials for the Central Police Academy Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the company's research center Quality Management System (ISO 14001:2008) certified Environmental Management System (ISO 14001:2008) certified Sponsored and provided support for broadcasting XTM's My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the Studien Attack Alive contest in Inje, Kangwon province Patented the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Operated t | | Sponsored and provided support for broadcasting the MBC TV series, "Real Men" | | | |
| 2014 Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces Operated the main event during the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) Entered export and exclusive sales contract agreements with CQB in Taipel, Taiwan Entered a supply agreement for the Sangiu-si Military Park in Kyungbuk province Supplied training materials for the Central Police Academy Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 14001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's 'My Country Wants Me'' (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the sith Sudden Attack Alive contest in Inje, Kangwon province Patented the structures for survival games Operated the Structures for survival games Operated the structures for survival games Patented the structures for survival games Operated the structures for survival games Operated the sent of the | | Operated a survival match event for the Korean Military army festival / Keiryong army festival | | | |
| Operated the main event during the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) Entered export and exclusive sales contract agreements with CQB in Taipei, Taiwan Entered a supply agreement for the Sangju-si Military Park in Kyungbuk province Supplied training materials for the Central Police Academy Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the Sth Sudden Attack Alive contest in Inje, Kangwon province Patented the tructures for survival games Operated the extinctures for survival games Operated the sinia event of e-Sports in Suwon, Kyungki province Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon prov | | Patented the simulation device equipped with a BB bullet disturbing system | | | |
| Entered export and exclusive sales contract agreements with CQB in Taipei, Taiwan Entered a supply agreement for the Sangju-si Military Park in Kyungbuk province Supplied training materials for the Central Police Academy Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's 'My Country Wants Me' (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the survival games Operated the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon province Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Supplied G450 (Bluetooth model) to a private US combat training cent | | Operated the GPR system for the 7th Airborne Brigade contest under the Special Forces | | | |
| Entered a supply agreement for the Sangiu-si Military Park in Kyungbuk province Suppled training materials for the Central Police Academy Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military research force Patented the structures for survival games Operated the survival game helmet Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of the Robot Contents Show in Changwon province < | | Operated the main event during the Robot Contents Show of Kyungnam Robot Industry Foundation (for 3 days) | | | |
| Supplied training materials for the Central Police Academy Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 14001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the survival games Operated the Subden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon province Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon city Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Supplied G450 (Bluetooth model) to a private US combat training center | | Entered export and exclusive sales contract agreements with CQB in Taipei, Taiwan | | | |
| Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March-May) Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the 5th Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contexts Show in Changwon province Operated the main event of the Robot Context Show in Changwon province Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Supplied G450 product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. | | Entered a supply agreement for the Sangju-si Military Park in Kyungbuk province | | | |
| Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the structures for survival games Operated the structures for survival games Operated the structures for survival games Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon city Operated the main event of the Robot Contents Show in Changwon province Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 toraduct demonstration at Crosma Corporation, New York | | Supplied training materials for the Central Police Academy | | | |
| Patented the simulation device for survival games Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the structures for survival games Operated the structures for survival games Operated the structures for survival games Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon city Operated the main event of the Robot Contents Show in Changwon province Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 toraduct demonstration at Crosma Corporation, New York | | Sponsored and provided support for broadcasting the SBS TV show, "Three Days" (March–May) | | | |
| Patented the infrared rays module-type simulation device with distance adjustment Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the 5th Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon province Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon city Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 system to the Special Forces 707 (Korea Army) < | | | | | |
| 2013 Established the company's research center Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the Sh Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon city Operated the main event of the Robot Contents Show in Changwon city Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 system to the Special Forces 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies <td rowspan="5">2013</td> <td></td> | 2013 | | | | |
| 2013 Quality Management System (ISO 9001:2008) certified Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the St Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon city Operated the main event of the Robot Contents Show in Changwon city Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 system to the Special Forces 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies | | | | | |
| Environmental Management System (ISO 14001:2004) certified Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Patented the structures for survival games Operated the Structures for survival games Operated the structures for survival games Patented the structures for survival games Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Operated the laser battle system to Inje town hall in Kangwon province Supplied G450 products to the Korea Army Special Task Force Supplied G450 system to Inje tores 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G450 samples to the Swedish and French military agencies | | | | | |
| Sponsored and provided support for broadcasting XTM's "My Country Wants Me" (6 episodes) Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the 5th Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon province Operated the laser battle system to Inje town hall in Kangwon province Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 system to the Special Forces 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies | | | | | |
| 2012 Developed the Korean-type combat simulation system for the military reserve force Patented the structures for survival games Operated the 5th Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon city Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Supplied G450 products to the Korea Army Special Task Force Supplied G450 system to the Special Forces 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies | | | | | |
| 2012 Patented the structures for survival games Operated the 5th Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event during the Sudden Attack contest in Inje, Kangwon province Operated the main event of the Robot Contents Show in Changwon city Operated the main event of the Robot Contents Show in Changwon city 2010 Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Supplied G450 product so to the Korea Army Special Task Force 2009 Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 system to the Special Forces 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies | | | | | |
| 2012 Operated the 5th Sudden Attack Alive contest in Inje, Kangwon province Patented the survival game helmet Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event of the Robot Contents Show in Changwon province Operated the main event of the Robot Contents Show in Changwon city Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Supplied G450 product demonstration at Crosman Corporation, New York 2009 Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 system to the Special Forces 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies Supplied G300 samples to the Swedish and French military agencies | | | | | |
| Patented the survival game helmetInterchange of technology with the Unmanned Technology Research Center of KAISTProvided technical advice at the Robot Land technical seminar in Changwon cityOperated the main event of e-Sports in Suwon, Kyungki provinceOperated the main event during the Sudden Attack contest in Inje, Kangwon provinceOperated the main event of the Robot Contents Show in Changwon citySupplied G450 (Bluetooth model) to a private US combat training centerSupplied G450 (Bluetooth model) to a private US combat training centerSupplied G450 products to the Korea Army Special Task ForceConducted product demonstration at Crosman Corporation, New YorkEntered a sales contract agreement with Infinite Shooting System Corp.Supplied G450 system to the Special Forces 707 (Korea Army)Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense ForceSupplied G300 samples to the Swedish and French military agencies | 2012 | | | | |
| Interchange of technology with the Unmanned Technology Research Center of KAIST Provided technical advice at the Robot Land technical seminar in Changwon city Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event during the Sudden Attack contest in Inje, Kangwon province Operated the main event of the Robot Contents Show in Changwon city Supplied G450 (Bluetooth model) to a private US combat training center Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 yob to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies | | | | | |
| Provided technical advice at the Robot Land technical seminar in Changwon city 2011 Operated the main event of e-Sports in Suwon, Kyungki province Operated the main event during the Sudden Attack contest in Inje, Kangwon province Operated the main event of the Robot Contents Show in Changwon city Supplied G450 (Bluetooth model) to a private US combat training center Supplied the laser battle system to Inje town hall in Kangwon province Supplied G450 products to the Korea Army Special Task Force Conducted product demonstration at Crosman Corporation, New York Entered a sales contract agreement with Infinite Shooting System Corp. Supplied G450 system to the Special Forces 707 (Korea Army) Exported G300 to Thailand / conducted a G450 product demonstration for the Japanese Self-Defense Force Supplied G300 samples to the Swedish and French military agencies | 2011 | - | | | |

Construction Career

Korea

GUNPOWER Corp. is specialized in designing and constructing survival game sites across the country. GUNPOWER Corp. also provides close quarter battle training equipment for special forces, police school, etc.

Overseas

GUNPOWER Corp.'s unique products have gained worldwide attention.

Established a local branch office in Russia, entered into an agreement in France, contracted for wholesale business in Taiwan, etc.

Tasks

Game Field and Facility Design

- Survival game field facility
- BB bullet shooting center/facility
- Concealed obstacles
- Structural obstacles
- Stand
- 3D rendering
- Consulting

Network/Audio

- Establishment of wireless communication infrastructure
- Establishment of wire communication infrastructure
- AP controller
- Audio speaker
- Amplifier design
- Establishment of broadcasting system
- CCTV (video surveillance)

Establishment of the GPR System

- GPR equipment
- GPR guns
- Target system
- Control system
- Charging system
- Electronic scoreboard
- Software, hardware

HISTORY

GUNPOWER Corp. consists of experts who have years of experience in the military survival game industry. Based on their expertise in a variety of fields and plenty of hands-on and on-site experience, GUNPOWER Corp., leads the leisure sports industry for functionality and special organizations.

GUNPOWER Corp. has intensively invested in the research and development of military survival to provide survival products that are differentiated from the existing ones from both domestic and overseas markets. As such, the company is able to secure powerful competitiveness. Instead of settling for mere development, GUNPOWER Corp., continues to invest on the research and development for various ideas, designs, and technical patents, etc., with an aim for continuous improvement.

GPR System is an optimized digital product for cuttingedge CQB (Close Quarter Battle) and MOUT (Military Operations in Urban Terrain) that can be operated in any area such as hobby, leiports (i.e., a South Korean concept that combines leisure and sports), enterprise products, training of special organizations, etc., where the 6-mm BB bullets of AirGun and IR-LED are used. The GPR system, a cutting-edge product, is a virtual war simulation that creates a realistic FPS (first-person shooter) battle game, which has been highly praised by those who have gone through its trials as well as the audience.

Construction of Survival Game Fields

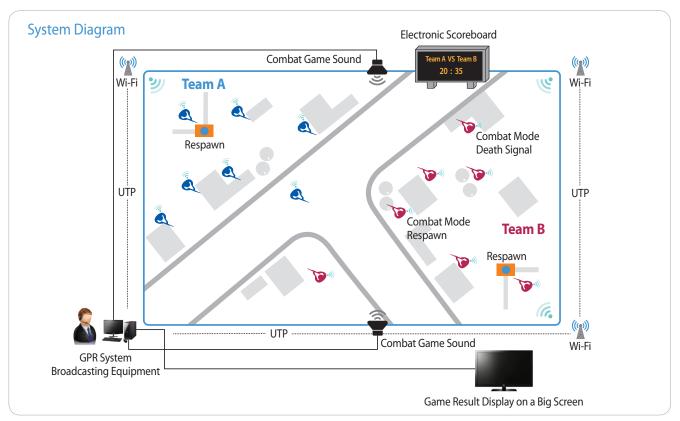

Production and Installation of Obstacles

Operation of Survival Events

GUNPOWER Corp. is specialized in designing and constructing survival game sites across the country. GUNPOWER Corp. also provides close quarter battle training equipment for special forces, police school, etc.

A cutting-edge survival training system customized for special mission training!

An airsoft gun survival game that everyone can enjoy!

The most optimized entertainment solution for broadcasting events and festivals!

G1300

An airsoft gun functional military game that everyone can enjoy!

GPR Helmet

The GPR helmet is a special helmet that used BB bullet sensing technology. The whole area of the helmet, including the shield glass, operate as sensors. Furthermore, a speaker is mounted inside the helmet for voice instructions, in addition to a red LED light used to indicate the death of a player during the game.

GPR Vest

 \square

The sensor panels on the front and back sides of the GPR Vest can sense BB shot impacts. The vest is fitted with a power supply unit and a communication module, allowing the control system to monitor the player's status (KIA, number of shots triggered, hit area, and battery percentage).

GPR Gun (pistol, rifle)

This customized airsoft gun can be linked with the GPR System. Also, it has an automatic gun control function, which prevents the gun from firing when the player is hit. It is available in two types: pistol (for general use) and rifle (for military/police training).

Accessory

Respawn BOX

This device resurrects the player to rejoin the battle during a game.

Auto BB Loader

This device automatically supplies BB shots to the magazine.

G1700L

Training is a true battle! This system is optimized for practical military training that goes beyond a military survival game.

Verified Training System

The IR-LED type G1700L, as verified by G1300 dynamic control program, is an optimized device for common game players as well as military training, including mission training against terror attacks. This all-in-one device operates a gun, helmet, and vest, with a single battery.

A training accomplishment and index are expressed in numbers, which provide better analysis of individual training levels, thus ensuring systematic training accomplishment.

Accessory

Battery Charger

Ultrafast charger for all-in-one batteries (simultaneously charges up to 4 batteries)

All-in-one Battery

As it allows a player to power the gun, the helmet, and the vest with a single battery, it is thus easier to maintain them. Racks

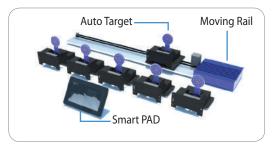

T-200 Hidden snipers are returning to the city! Shooting game franchise solution

GPR Shooting Zone (BB shooting range)

The GPR Shooting Zone is a shooting range that turns busy streets in cities into leisure venue. All of GUNPOWER's technologies are integrated into the cutting-edge shooting system with online features that can be accessed via its smart pad application. Such features include personal ranking, points, competition, etc., which that are combined with offline games at these BB shooting ranges.

3D Computer Graphic Survival Game Zone Research and Development

The GPR System is a reliable and optimized product that has been precisely designed and developed by the most experienced specialists.

Products List

| | | G450 | Vest, Helmet, and Battery |
|--------------------|---------------------|---------------------------|--|
| | | G1300 | Vest, Helmet, and Battery |
| | Personal Equipment | G1300 Handgun | Electronic Glock, Pouch, Magazine, and Battery |
| | | G1300 Rifle | M4CQB, Magazine, Battery, and Gun Slings |
| | | G1700L | Vest, and Helmet |
| | | G1700L Rifle | M16A3L, Battery, and Gun Slings |
| | | Monitoring Computer | PC/Printer |
| | | Audio System | Microphone, Amplifier, and Speaker |
| | | Network Equipment | AP, Controller, Hub, and Rack |
| | System Equipment | CCTV | Encoder 8 channels, and 8 CCTVs |
| | | Respawn Box | Respawn Box |
| | | Ranking Monitor | 50" LED-TV |
| Airsoft / Training | | Electronic Scoreboard | |
| system | Structures/Facility | Obstacles | Patented or Non-patented Obstacles |
| | | Racks | Helmet Racks, Equipment Racks, and Gun Racks |
| | Software | Operation System Software | For AirSoft /For IR-LED |
| | | Auto Bullets Loader | Auto Bullets Loader, and Inlet Accessories |
| | | Battery | G450/G1300 Vest Battery |
| | | | G1300 Handgun Battery |
| | | | G1700L Rifle Battery |
| | A | Charger | G450/G1300 Vest Charger |
| | Accessories | | G1300 Handgun Charger |
| | | | G1700L Rifle Charger |
| | | Remote Control | |
| | | Gun Slings | |
| | | BB Bullets | |
| | Target Equipment | T-200 | Fixed Targets, and Moving Targets |
| | | T-300 | Independent Fixed Targets, and Independent Moving Targets |
| | | Smart Pad | Smart Pad, Racks, and Card Reader |
| | Software | Application | For individuals / for vendors |
| | | GBB | Handgun, Rifle, Sniper, and Heavy- weight Firearms |
| Shooting System | Guns | EBB | Handgun, Rifle, Sniper, and Heavy- weight Firearms |
