## David vs. Goliath

*Is this the end of gun safes as we know them?*

Has the gun safe industry finally “Jumped the Shark”? Gun Storage hasn’t changed in over 100 years and is out of touch with modern firearms and their owners. Spend a few moments with Tom as he peels back the layers of our Gun Safe Industry to expose the truth about traditional safes by pointing out what they are, and more surprisingly, what they are not. SecureIt is known as the company that changed the way our US Military stores weapons with a solution that is now taking aim at the gun safe industry. “This industry is so arrogant, so overconfident and so wrong”. Why? Learn how David is going to slay Goliath and bring an end to the traditional gun safe as we know it on January 17, 2017 at Booth #727.
