

## Introducing the Havalon EXP

Since it was founded in 2005, Havalon Knives has pushed to create the sharpest most innovative knives on the market. This commitment to innovation has redefined the hunting knife category. In 2017, Havalon is setting its sights on a new segment.

Introducing the Havalon EXP the first Havalon knife designed specifically for everyday carry. The all black design and tanto style blade of the EXP is tactically inspired, but it is so much more. What sets this knife apart from other EDC and tactical knives is the addition of the Havalon Quik-Change fitment. The addition of the Havalon replaceable blade system gives users the perfect balance of sharpness, finesse, strength and reliability. With the world's sharpest blade on one end and an endlessly capable tanto on the other, the Havalon EXP is ready for anything.
