

AVAILABLE SPRING 2017

# REXIT™ from Estwing

The Optimal Tool for Breaching, Ramming,  
Forced Entry, and Firefighting Work.

REXIT – the Rapid Entry and Exit Tool

- Forged U.S. Steel and fully heat treated for durability.
- 36" length, allows for optimal hand spacing when applying force as a ram.
- Use as a brace for emergency anchor points.
- 19 lbs. weight is light enough to be easily carried and used by most first responders but heavy enough to create substantial force allowing the tool to do the work.
- Excellent balance. The fork end complements the heavy weight of the ram side making for a perfect front heavy balance of the tool.
- Supplied with a comfortable and quickly adjustable shoulder strap.
- Available in Black, Red, Tan, or Green tactical powder coated finish.
