#### USE LARGE MECHANICAL BROADHEADS ON BODY SHOT

Turkeys are difficult to anchor using anyting short of large mechanical broadheads. From shoot bows set to 65 or 70 pounds, which alone me to push a huge mechanical broadhead with 2-inch (or larger) cutting diameter.

The benefits of a large mechanical broadout are twofold. First, the arrow's energy unloads or the bird upon impact as the blades open. This alone helps knock the bird down. Second, the large cutting diameter forgives when shots are marginal. Put simply, behemoth blades increase recovery rates.

#### Allen Company Expands Popular Baktrak Slings

Broomfield, CO. Allen Company, long known for delivering the perfect blend of value and quality to the outdoor industry, has recently expanded their lineup of popular Baktrak Slings.

Baktrak slings are known foremost for their tacky grip-like tread system fused icto the back of the sling structure. With a tread that resembles a powersports tire tread, these slings provide the utmost in gripping power, keeping the rifle fused closely to the shooter's shoulder. Baktrak technology was designed specifically as a solution to help the rifle stay shouldered comfortably as a shooter moves across varying terrain conditions.

For 2016, six new Baktrax slings have been introduced into both the shooting and presidow markets.

Baktrisk elings come in a wide array of model types including full-grain leather, movided polymer or die cus neachene. In addition to strace model types, there are a number of visual accents blended together in multiple estions including: Mossy Oskilli came. Muddy Girliß camo and venous solid town.
