

QUALITY CARRYING CASES SINCE 1985

Americase Offers Daily Giveaway at SHOT Show

Americase has announced that during the 2017 SHOT Show they will be giving away a limited edition Ultra-Lite Single Pistol Case each day. Simply stop by booth #1204 to register. The drawing will be held each afternoon at 4:30pm, and on Friday at 3:00pm.

In addition, Americase will be unveiling two new cases for 2017. Their Ultra-Lite 3019 Utility Case and the AT-Transport Case. The UL-3019

Utility Case allows you to travel with your breakdown shotgun plus has a lid storage compartment that can be packed with clothing, supplies, or other accessories. It also has three straps to hold a second barrel. If you're looking to check one item at the airport, let this be it!

The new AT-Transport Case is made to house plastic breakdown shotgun cases that cannot withstand the torture of baggage handlers. Because of damage issues, customers have been asking Americase to build a case to protect their high value firearms stored in a plastic case. So, Americase built a case for your case. When "good enough" isn't good enough, Americase has the answer.

Americase, based out of Waxahachie Texas, will have sporting case representatives available to speak with you about your case needs. They will also be offering a 10% discount on four plus case purchases during the event. Stop by booth #1204 to check out the newest items in the Americase line up and experience the legendary protection first hand.

QUALITY CARRYING CASES SINCE 1985

About Americase:

Americase, an ISO 9001/AS9100 company, is the premier case manufacturer of airline quality transport cases for Guns, Archery, and Industrial equipment. Americase produces commercial carrying cases as well as custom gun cases for shotguns, pistols, rifles, and archery equipment. Their onsite staff enables Americase to develop, engineer and create any case type you can imagine. If you can dream it, Americase can build it. Americase has been providing Quality Carrying Cases, made in the U.S.A. since 1985.
