New Product: DZT-KM10 & DZT-KM15 GEN2 Hand Guards

DEZ Releases 2nd Generation of KeyMod Hand Guards For AR-15 and AR-308 Rifles

DEZ is pleased to announce the release of their generation 2 KeyMod rail system which features a new look and improved design. The DZT-KM10 (DPMS Low Profile - AR-308) & DZT-KM15 (AR-15) rail is lightweight, rugged, free-floating keymod rail system manufactured by DEZ Arms and DEZ Tactical Arms. The hand guards feature full KeyMod sections on sides and bottom, and a continuous picatinny rail on top. All AR-15 and .308 versions now feature a fixed picatinny rail segment on the bottom for use with a bipod.

The rail system features an easy to install proprietary barrel nut, and is available in five lengths and two styles for both the AR-308 and AR-15. Available lengths include 12", 15" and 19". DEZ hand guards are manufactured from 6061 extruded aluminum, and finished with hard-coat black anodizing.

Visit DEZTactical.com for more information and for dealer inquiries. This product will be debuted at SHOT Show 2017 - Booth 549, and featured in the SHOT Show New Product Center.
