

Promote Your Business With New Private Label Gun Care Products by Blitz

For over 100 years Blitz has been private labeling products for their customers so that every time their customer uses the item, they constantly recognize where they received the product. That's great marketing!

The original "Blitz Cloth" was a staple of the U.S. military for decades and is proudly displayed in the Smithsonian Institute!

Blitz's quality products, cutting-edge packaging technology and small MOQs make Private Label Blitz products the perfect promotional item to advertise your store and drive additional sales. Our perceived value, high quality and innovative spirit has enabled us to sustain our upscale image for over a century. This brand equity translates to quality at all levels.

Blitz currently offers 14 gun care items that can be customized with a store name or logo. Retailers now have the opportunity to add SKUs to their current product mix or give these items away as a gift with purchase. Gun shops, manufacturers, distributors and shooting ranges can now make a profit and/or promote their company every time their customers clean their firearms.

In addition to private label, Blitz produces many OEM products for a variety of major branded manufacturers and accessory companies throughout the world. If you are a manufacturer or branded accessory company, stop by the Blitz booth at the SHOT Show to discuss how they can customize a program for your company.

For over 100 years, Blitz Manufacturing Company, Inc. has manufactured nontoxic and environmentally friendly metal cleaners, polishes, polishing cloths and other related accessories. Today, they are one of the leading producers of polishes, polishing cloths and cleaners for the firearm, housewares, jewelry and music industries worldwide.

All of their cleaners and polishes are made in the USA. Visit them at the SHOT Show Booth #1567 for a free sample and more information. See their complete line at www.blitzfirearmcare.com or call them direct at 855-473-3260

Blitz is a registered trademark of Blitz Manufacturing Company, Inc.
