FOR IMMEDIATE RELEASE:

2018 SHOT Show: Stop by the Boker Booth to Meet Lucas Burnley – and Check out the New Kwaiken Automatic!

Lakewood, Colorado (December 22, 2017) – Boker, manufacturer of fine cutlery, will host Lucas Burnley at the Boker booth at SHOT Show 2018 in booth #13167, January 23-24.

The last few years have seen spectacular collaborations between Boker and custom knife maker Lucas Burnley – one of the most successful projects has been the enormously popular Kwaiken. Now a new player joins the team, ProTech Knives, to take the Kwaiken to a whole new level.

The brand new, American-made Kwaiken Automatic combines the slim and minimalistic Kwaiken design with the precise spring mechanism that only ProTech is able to deliver. The flawless action of the push-button makes opening the Kwaiken a breeze, and the ultra strong spring delivers an impressive kick when the 1.54CM blade locks open. The robust handle is CNC-milled aluminum and sports a pocket clip.

The series kicks off with two models, which will see limited release (250 pieces of each) in January 2018. One features a two-tone blade (model 06EX290, \$219.00), and the other a stonewash finished blade and black handle (model 06EX291, \$229.00).

Lucas Burnley himself will be at the Boker booth (13167) on January 23rd from 9:00am – 11:30am, and on January 24th from 1:00pm to 3:30pm. Be sure to stop by for more information on this exciting new series!
