Chamber-View® Debuts New .308 / 7.62mm Empty Chamber Indicator (ECI)

Chamber-View® increases firearm safety for hunters, law enforcement and military forces with release of new product designed to fit most AR-10 Modern Sporting Rifles (MSR) and their clones.

Merrimack, N.H. (July 2015) – [Chamber-View®, LLC](http://www.chamber-view.com), innovators of highly visual firearms safety products, is pleased to announce the introduction of the new [.308 / 7.62mm Empty Chamber Indicator \(ECI\)](#). This new ECI is designed to fit most AR -10 Modern Sporting Rifles (MSR) and clones accepting .308 caliber and 7.62mm ammunition. The .308 caliber has become the most popular caliber for short-action, big game hunting worldwide, while the 7.62mm remains in use for various sniper rifles, medium machine guns and various rifles used by special operation forces and SWAT teams. The 7.62mm bore has been in use by militaries around the world since WWII. Chamber-View®'s newest ECI is ideal for these uses, as well as for those who participate in long distance hunting, target shooting, military sniping or police sharpshooting.

Made of 100 percent ultra-durable silicone, the .308 / 7.62mm ECI provides instant recognition that a firearm is safe by indicating a fully open action to surrounding shooters, personnel and observers. Not only does it enhance the safety of the shooter by aiding against accidental closings of the action, this ECI also helps preserve firearm performance by preventing elements from contaminating the ejector port, magazine and barrel.

The .308 / 7.62mm ECI is compatible with Chamber-View® [Fast-Pull Tags](#), which allow for quick and easy removal of the ECI from the ejection port of a firearm. Fast-Pull Tags not only provide increased visibility, but also have an inscribable back side that allows for customization and identification. The .308 / 7.62mm ECI is also compatible with Chamber-View®'s all new silicone Modular Barrel Extension option (coming soon). This new option will provide COMPLETE SAFETY from chamber to muzzle.

-more-

The .308 / 7.62mm ECI has a long service life and is minimally affected by weather extremes. It is also flexible and resilient across a wide range of temperatures and will not melt or deform in a hot barrel. Designed to be finger friendly with an enhanced comfort and feel in mind, the .308 / 7.62mm ECI won't scratch surfaces and has excellent sealing properties against environmental elements. Available in highly visible "BLAZE" Orange, the .308 / 7.62mm ECI is also water repellant, heat resistant and is chemically resistant to a wide range of gun cleaning solvents.

The .308 / 7.62mm ECI is available for purchase at www.chamber-view.com with availability at retailers following soon.
