

# About KLARUS®

KLARUS LIGHTING TECHNOLOGY CO., LIMITED is a leading manufacturer of state-of-the-art illumination tools, which have been designed to meet the extreme demands of Law Enforcement and the Military, but sensibly priced for general outdoor use.

Located in Shenzhen, Guangdong, China, KLARUS is comprised of a highly experienced R&D team and some of the brightest and most creative designers and engineers in the industry. With such a strong team of innovators, KLARUS has quickly become a leader in regulated circuit efficiency technology. You can expect a KLARUS flashlight to be extremely durable and reliable, with an ability to excel in all weather conditions. Every KLARUS flashlight is innovative, precision-machined and uses KLARUS's own regulated circuits to ensure optimum performance and efficiency – delivering a balance of high brightness and long run time.
