Sightmark unveils new hunting riflescope line *Core HX Riflescope Series debuts whitetail, hog hunting reticles*

(MANSFIELD, TEXAS) – Sightmark is proud to announce the release of the Core HX Riflescope Series, offering four new reliable hunting optics that serious hunters can depend on season after season. Designed solely for the field, the Sightmark Core HX Riflescope Series has been crafted to offer versatility to the modern hunter. The Core HX series of optics allows hunters to confidently prepare for the season ahead by providing the right reticle styles and features to match any pursuit.

Core HX 2-7x32 HHR Hog Hunter Riflescope

Designed specifically for hunting feral hogs, the Sightmark Core HX 2-7x32 HHR Hog Hunter Riflescope has been crafted to offer versatility in the field. With a 2-7 magnification and a 32mm objective lens, this reliable optical system offers a wide field of view for fast shooting on moving targets. The range-finding, hog reticle allows hunters to calculate distances for selecting the perfect shot. Constructed from a single piece of durable aircraft-grade aluminum, the 2-7x32 HHR works with a variety of calibers. Engineered to withstand the most punishing conditions, the durable Hog Hunter Riflescope is shockproof, fogproof, and waterproof.

Core HX 3-9x40 VHR Venison Hunter Riflescope

The Sightmark Core HX 3-9x40 VHR Venison Hunter Riflescope was designed for whitetail hunters. With a 3-9 magnification and a 40mm objective lens, this reliable optic allows hunters to confidently prepare for the season ahead by providing a range-finding BDC reticle that works with a variety of hunting calibers. The 3-9x40 VHR is constructed from a single piece of durable aircraft-grade aluminum to withstand the most punishing conditions and is shockproof, fogproof, and waterproof.

Core HX 4-16x44AO VHR Venison Hunter Riflescope

Designed specifically for the whitetail deer hunter, the Sightmark Core HX 4-16x44AO VHR Venison Hunter Riflescope has been crafted for accuracy. This reliable 4-16 magnification riflescope is equipped with a 44mm adjustable objective lens for parallax removal and a range-finding BDC reticle that works with a variety of hunting calibers. The 4-16x44AO VHR is constructed from a single piece of durable aircraft-grade aluminum to withstand the most punishing conditions and is shockproof, fogproof, and waterproof.

Core HX 6-24x50AO VHR Venison Hunter Riflescope

The reliable Sightmark Core HX 6-24x50AO VHR Venison Hunter Riflescope features 6-24 magnification with a 50mm adjustable objective lens for parallax removal and a range-finding BDC reticle that works with a variety of hunting

calibers. The 6-24x50AO VHR is constructed from a single piece of durable aircraft-grade aluminum to withstand the most punishing conditions and is shockproof, fogproof, and waterproof.
