

Firearms Export/ Import Strategy

Thinking Internationally?

Do you want to:

- Export firearms or parts from the U.S.?
- Take advantage of design, manufacturing or assembly opportunities outside the U.S.?
- Import firearms or parts into the U.S.?
- Assess or strengthen your export / import compliance systems?

THE SOLUTION—ORCHID ADVISORS

New Exporters

We show new firearms exporters how to get started and assist them with:

- DDTC, DTrade, SNAP-R registration
- Training in export regulations (ITAR and EAR)
- Preparation of licenses
- Commercial issues (terms and conditions of sale, payment, shipping)

Experienced Exporters

We help experienced exporters with:

- As-needed export compliance and licensing advice
- Offshore manufacturing, design and other collaborations (Manufacturing License Agreements and Technical Assistance Agreements)
- Assessment of compliance programs and remediation of problems
- Export compliance training, policies, systems
- Export of NFA items
- Managing export and anti-bribery compliance of third-party intermediaries and end users
- Use of technology to improve export compliance and business performance

Importers

- FFL requirements
- ATF Form 6
- Federal Excise Tax (FET)
- Import policies and programs

About Orchid Advisors

Orchid Advisors assists firearms manufacturers, distributors and retailers in achieving compliance and operational excellence through education, technology, software and consulting solutions that reduce risk, cut costs, and provide expert guidance to make our client's business more successful and efficient.

- Deep industry knowledge and experience
- Rapid response
- Part of your team

"Orchid Advisors has provided the most prompt service and professional counsel in navigating the complicated waters of ITAR and DDTC issues. With their experience, we have avoided many delays and pitfalls."

— Evin Galbraith, Director of Business Development, Minelli USA
