

We Provide Metalforming Solutions to Industry

Dayton Rogers has defined engineering and manufacturing in the metalforming industry. From design to prototype for production, our dedicated teams will partner with you for the best product.

The United States Military has relied on Dayton Rogers to provide fabricated and stamped parts and assemblies for various land, sea, and air based applications.

Services

- Stamping
Progressive, Modular, Deep Draw
- Fabrication
Laser, Turret, Brake Press
- Welding
Robotic, Arc, Mig, Tig, Spot
- CNC Machining
- Assemblies
Mechanical, Hardware Insertion
- In-House Tool Room

Quality

- ISO 9000:C
- AS 9100:D
- ITAR
- MIL-I-45208

Industries

- Aerospace/Defense
- Agriculture
- Construction
- Energy
- Industrial
- Medical
- Recreation
- Transportation

History of Manufactured Items

- Bipods
- Shell Latches
- Trigger Bars
- Safety Mechanisms
- Magazine Bodies
- Bolt Stops
- Loaded Chamber Indicators
- Firing Pins
- Receiver Components
