## FOR IMMEDIATE RELEASE

DeSantis Gunhide® introduces a new holster called the

### **Variable® GRD™ Holster**

AMITYVILLE, NY – For nearly five decades, DeSantis has been developing, designing, and manufacturing the very best gun holsters that money can buy. We pride ourselves on using the best American-Premium hides and the toughest synthetics available for our holsters and accessories.

## #194 Variable® GRD™ Holster

The newest holster in the DeSantis lineup is model #194, the Variable® GRD™. This outside the waistband holster is constructed by experienced craftsmen at the DeSantis factory in New York using only the highest quality premium saddle leather. The opening of the holster is shaped with external leather reinforcements on both sides to keep the top of the holster stable allowing for an easy one-hand return. Like many other DeSantis holsters this model is both ambidextrous and adjustable for height and cant. The #194 also features the Gunhide® Retaining Device (GRD™). This feature is a built-in internal component that helps retain the weapon and registers an audible “click” once secured. The GRD™ also protects from rear takeaway attempts. The #194 is now available for many commonly carried autoloaders in black and saddle tan. MSRP is \$79.99
