Discover Even More Outdoors With the New ZEISS Victory SF 32

Optics manufacturer expands its line of ZEISS Victory SF binoculars

White Plains, NY/January 8, 2021

ZEISS is presenting the ZEISS Victory SF 32, the latest addition to its SF line of binoculars. The Victory SF 32 binoculars allow you to experience the most exciting hunting moments as never before. The optical perfection, the unparalleled field of view, the revolutionary ergonomics and the ultra-light design make this model the best all-purpose binoculars ever built by ZEISS.

The ZEISS Victory SF 8x32 offers an exceptionally wide field of view of 465 yards at 1,000 feet. A large field of view is essential for spotting game as it enables you to cover large areas faster and to see small movements at the edge of the viewing field. It only takes 1.6 revolutions of the focus wheel to adjust from infinity to the minimum focusing distance of 6.4 feet, meaning the binoculars offer the perfect balance between fast and highly precise focusing. "Thanks to the unsurpassed image quality with high light transmission, the enormous field of view, and the SmartFocus concept, hunters can easily spot wildlife and focus on them more quickly," explains Richard Moncrief, Territory Account Manager for ZEISS Consumer Products for Carl Zeiss SBE, LLC.

The ZEISS Victory SF 32 features the unique ErgoBalance concept already well-known from other models in the SF line of binoculars, in which the center of gravity is shifted towards the eyepiece, making long-term observation extremely light, ergonomic, and fatigue-free. "People going on extended trips are looking for lighter weight binoculars that take up less space and weight in their luggage. Coming in at 20 to 21 oz. depending on the model, the Victory SF32 's are less fatiguing to use all day and deliver wonderful optical performance," Moncrief discussed.

The ZEISS Victory SF 8x42 and the ZEISS Victory SF 10x42 are known for offering excellent clarity and rapid visual recognition, even in poor lighting conditions.

Technical Data – ZEISS Victory SF 8x32 and 10x32

		8x32	10x32
Magnification		8x	10x
Effective lens diameter	mm	32	
Exit pupil diameter	mm	4	3.2
Twilight factor		16	17.9
Field of view	ft/1000 yds	465	390
Subjective angle of view	°	67	69
Close focus	ft	6.4	
Diopter adjustment range	dpt	+- 4	
Eye Relief	mm	19	
Interpupillary distance	mm	54 – 76	
Prism system		Schmidt-Pechan	
Coating		LotuTec/T*	
Nitrogen filling		yes	
Water resistance	mbar	400	
Operating temperature	°F	--22/145	
Length	in	6.0	5.9
Width at an interpupillary distance of 65 mm	in	4.4	
Weight	oz	21.2	20.8

About ZEISS

ZEISS is an internationally leading technology enterprise operating in the fields of optics and optoelectronics. In the previous fiscal year, the ZEISS Group generated annual revenue totaling more than 6.4 billion euros in its four segments Semiconductor Manufacturing Technology, Industrial Quality & Research, Medical Technology and Consumer Markets (status: 30 September 2019).

For its customers, ZEISS develops, produces and distributes highly innovative solutions for industrial metrology and quality assurance, microscopy solutions for the life sciences and materials research, and medical technology solutions for diagnostics and treatment in ophthalmology and microsurgery. The name ZEISS is also synonymous with the world's leading lithography optics, which are used by the chip industry to manufacture semiconductor components. There is global demand for trendsetting ZEISS brand products such as eyeglass lenses, camera lenses and binoculars.

With a portfolio aligned with future growth areas like digitalization, healthcare and Smart Production and a strong brand, ZEISS is shaping the future of technology and constantly advancing the world of optics and related fields with its solutions. The company's significant, sustainable investments in research and development lay the foundation for the success and continued expansion of ZEISS' technology and market leadership.

With over 31,000 employees, ZEISS is active globally in almost 50 countries with around 60 sales and service companies, 30 production sites and 25 development sites. Founded in 1846 in Jena, the company is headquartered in Oberkochen, Germany. The Carl Zeiss Foundation, one of the largest foundations in Germany committed to the promotion of science, is the sole owner of the holding company, Carl Zeiss AG.
