## FOR IMMEDIATE RELEASE

**Easton Maryland, January 8, 2020 - RETAY ARMS LTD. STI. of Konya Turkey announces that it will introduce the new GPS Tactical Shotgun.**

Customers have been asking and RETAY has answered with the all new GPS Tactical. The new GPS (Geometric Pump System) Tactical shotgun will come loaded with special features designed with defense functionality in mind.

The compact GPS Tactical 12ga will offer an unprecedented light weight frame with excellent performance and balance, and a weight at just 6lbs 1oz. The shotguns 18.5" ribless barrel comes threaded to accept Retay's removable MaraPro choke system as well as a fixed raised blade sight. The GPS features an alloy double pin trigger system and single piece receiver with integrated dove tail. The GPS is the first product to showcase Retay's new floating forend technology, with an ultra-short cycling distance.

For sustained durability the GPS offers a matte black finish and beefy double guided pump.

\*\* The GPS model will have a MSRP price of \$349
