

Kenetrek Hard Tactical

The new 9" Kenetrek Hard Tactical provides excellent support and durability for any duty application requiring a black boot. You will be amazed at the comfort of this boot due to the extra padded soft collars along with a special flex notch upper design. The uppers are made with 2.5mm premium full grain leather utilizing a one-piece vamp design – meaning no stitching at the tongue to come loose or allow moisture to penetrate. The uppers sit on top of stiff yet light full-length nylon midsoles. Great traction and long wear are assured with the Kenetrek Grapon™ rubber outsoles. Waterproof, breathable Windtex membranes keep your feet completely dry no matter what the weather is like. For a boot with this kind of support, the Hard Tactical is very light in weight at only 3.9 pounds per pair! Made in Europe. Suggested Retail Price = \$330.

Call or write for a copy of the Kenetrek boot catalog or the location of a dealer near you.
