

# SOK®-BLUELINE COMPARISON TO PEPPER/OC    MADE IN THE

PATENT PENDING

The SOK (SOAK) System is an odorless water soluble lubric gel that was developed to address many of the legal

and strategic concerns associated with the use of pepper sprays.

- Water base with food grade chemical approved by EPA and FDA.
- Spray directly into subject's eyes.
- No capsaicin (OC), pepper or other respiratory irritants.
- Non-toxic, non-explosive.
- Can be deployed in confined spaces.
- Decontamination of the subject in minutes.
- Clean up with cloth and water.
- Contains Presidential Green Chemistry Challenge Award fire suppressant.
- ZERO risk of fire or flash.
- Temporary eye irritation.
- No collateral, environmental, respiratory or toxicological effects.

SOK®-BLUELINE	COMPARISON	PEPPER SPRAY (OC and CAPSAICIN)
IMMEDIATELY	ACTIVATION TIME	UP TO 45 SECONDS*
