

Boyd's Gunstocks, the South Dakota-based hardwood gunstock manufacturer, latest thumbhole stock addition, **Spike Camp™** this thumbhole gunstock shape is designed with simplicity in mind. The affordable **Spike Camp™** is "The Essentials-Only" gunstock. Aptly named, this thumbhole gunstock keeps it simple: It's lightweight at just 2.5 lbs. and has a large ergonomically designed thumbhole that is super comfortable in your hands. It features a short Monte Carlo style comb to provide a proper cheek weld, two sling studs for sling attachment, and a free-floated barrel channel for better accuracy. For options, you get the essentials only: choice of color, optional pillars, laser engravings, and either a satin or glossy finish. You can upgrade to a 1-inch recoil pad; purchased separately.

Spike camps in the backcountry are a strategic necessity to tipping the odds in your favor and allowing you to do more with less.

The **Spike Camp™** thumbhole stock is a high-quality, extremely comfortable, lightweight, essentials-only stock. The performance of a free-floated barrel, standard sling studs, and a thumbhole grip give you everything you need to achieve success, and all while keeping weight and size down.

The **Spike Camp™** is available in all 13 of Boyd's color combinations and laser engravings. As with all Boyd's gunstocks, the **Spike Camp™** is constructed of top-grade premium laminated hardwood that is dried to exacting specifications to ensure rigidity and stability, and then sealed with a strong, beautiful finish that is chemical-resistant for long-lasting durability in all weather conditions.
