

## **RIA-USA ANNOUNCES THE ROLLOUT OF ITS INAUGURAL FIREARM: THE VRF14**

**IMMEDIATE RELEASE (Pahrump, NV)** – Armscor has announced the roll out of the first product in the history of its new U.S. based manufacturing facility, RIA-USA. The VRF14 was released to consumers in July 2021, marking a significant moment in the company’s commitment to bringing quality firearms to shooters.

A 12-gauge semi-automatic firearm, the VRF14 brings another option to the popular VR Series. The VRF14 features a 14-inch barrel and an overall length of 26 inches. The firearm comes with a pistol-style grip, sling adapter, flip-up sights and a half-rail on each side with full rails on the top and bottom. It comes with a 5+1 magazine, but is compatible with all 9- and 19-round VR Series magazines.

“This a great addition to the popular VR Series,” said Armscor President and CEO, Martin Tuason. “It’s really a one-of-a-kind firearm in the way it looks and performs. And the fact it’s American-made makes it even more special. Armscor and Rock Island Armory expanded into the U.S market in 1985, but the addition of our RIA-USA line is another example of our commitment to the U.S. shooting sports industry. This is the first of what will be many premium firearms that will be made on American soil.”

For those in attendance, Armscor / Rock Island Armory will be participating in SHOT SHOW 2022, Booth #13444. Stop by to learn more. If you are unable to attend SHOT SHOW, please visit [www.armscor.com/vrf14](http://www.armscor.com/vrf14).
