AIM is a complete business solution. It has everything you need to maintain ATF compliance (an integrated A&D book, 4473 form integration and Smartwaiver (Active-e required)) and manage your inventory from receiving to sales. Import products from industry-leading supplier catalogs like RSR Group, Chattanooga, Sports South, and Lipseys. AIM also covers the basics, like managing range memberships, lane usage, and customer sales.

Active-e is what extends AIM to the outside world, including websites, mobile applications and 3rd party developers. With Active-e you can provide your customers options to make payments, view account history, schedule lessons, rent inventory, receive mobile notifications, you can also integrate with e-commerce, connect with suppliers to check availability and pricing, run credit checks and so much more!

Ask one of our Business Consultants about our new mobile app.
