

GN15 STRIPPED UPPER & LOWER RECEIVER SET

THE GN15 BILLET LOWER RECEIVER designed for faster reloading by using a uniquely flared mag well. The GN15 AR lower is lightweight and compatible with mil spec and aftermarket components. An oversized trigger guard allows ease of use with gloves.

THE GN15 BILLET UPPER RECEIVER designed with competitive looks and durability. Our threaded upper is lightweight and specially machined to fit the contour of our lowers creating an excellent set for your next build. The GN15 is slick side with no forward assist and then, also has an oversized bolt catch cutout for using oversized aftermarket bolt catches on the lower.

GN15 LOWER RECEIVER FEATURES: Streamlined lightweight design for an awesome build. Threaded bolt catch roll pin for simple installation, integrated oversized trigger guard, upper tension screw for tuning the upper and lower fit, and a specially designed and flared mag well for speed loading.
