WEE1 TACTICAL at the 2023 SHOT Show® in Las Vegas

WEE1 TACTICAL will be at the 2023 SHOT Show® this January and will be joining an incredible list of more than 2,000 exhibits at The Venetian Expo and Caesars Forum in Las Vegas.

We are excited to have the JR-15 .22 Long Rifle this year! The JR-15 is the first in a line of shooting platforms that will assist families in safely passing on the proud American tradition of responsible gun ownership to the next generation of recreational shooting and hunting enthusiasts.

Since our nation's founding, families have passed on a love for hunting and shooting sports from one generation to another. Parents and guardians wishing to preserve this tradition have taken the responsibility for introducing new shooters to the safe, responsible use of firearms. The JR-15, a .22 long rifle, is designed to facilitate that, making the first shooting experiences safe and instructive.

The JR-15 functions like a modern sporting rifle, however and most importantly its small size, lightweight & rugged polymer construction and ergonomics are geared towards smaller enthusiasts. Additionally, its single shot capable with a one round magazine, The JR-15 is accessory ready with picatinny, M-LOK handguard, and seven position adjustable buttstock. We believe that with proper mentorship this platform will build confidence and teach responsibility.

Safety was so much at the forefront of our thought process that we developed and patented a tamper resistant safety that puts the adult in control of the firearms safety switch. The switch itself requires strength and dexterity to release. When this is engaged, the standard safety switch on the rifle cannot be released. Thus, adding a level of safety found on no other firearm of any size.

We believe we have built a truly unique shooting platform that a Parent or Coach can safely use to teach a new shooter.

Please find the JR-15 Specifications below:

Size	27 7/8 Collapsed / 30 7/8 Extended
Weight	Approx. 2lbs
Safety	Patented Tamper Resistant
Lower	Polymer
Upper	Polymer
Trigger	Mini Mil-Spec
Barrel	16"
Sight	No Sight Included / Red Dot Recommended
Magazine:	1rd, 5rd, 10rd, ships with single rd mag

PATENTED SAFETY, MADE IN USA
