

INTRODUCING OUTERWILD, formerly known as DRG Manufacturing

December 9, 2022

New ownership enthusiastically announces **OUTERWILD™**, formerly known as DRG Manufacturing. As a U.S. leader in the firearm component industry, the new brand name and additional product lines will launch at the 2023 SHOT SHOW in Las Vegas. The brand, spearheaded by new ownership is committed to delivering innovation and reliability resulting in precision-driven, American-made products. **OUTERWILD** will offer a full portfolio of parts for the AR15, AR10, and AR9 platforms. As a total solution manufacturing facility, **OUTERWILD** will continue to produce an extensive lineup of high-demand products including bolt carrier groups, lower receivers, upper receivers, barrels, handguards, muzzle brakes, and bolts.

In striving to offer the growing firearms market more innovative solutions, **OUTERWILD** will provide new and existing customers high quality, corrosion-resistant rifles including the **2023 GRIZZLR™** (Fully ambidextrous, custom-made billet lower and upper receiver set with a custom-designed handguard cerakoted in Burnt Bronze with a 16" Stainless Steel Precision Barrel chambered .223 Wylde, Nickel Boron BCG and high-end furniture), the **2023 TIMBRWLF™** (Custom-made billet lower and upper receiver set with a custom-designed handguard cerakoted in Tungsten with a 16" Stainless Steel Precision Barrel chambered .223 Wylde, Nickel Boron BCG and high-end furniture), the **2023 RAZRBCK™** (Custom-made billet lower and upper receiver set with a custom-designed handguard cerakoted in Black with a 16" Stainless Steel Precision Barrel chambered in .223 Wylde, Nickel Boron BCG and high-end furniture), and pistols including the **2023 PYTHN™** (Custom-made billet lower and upper receiver set with a custom-designed handguard cerakoted in Black with a 7.5" Stainless Steel Precision Barrel chambered in .223 Wylde, Nickel Boron BCG and high-end furniture) and the **2023 VIPR™** (Custom-made billet lower and upper receiver set with a custom-designed handguard cerakoted in Tungsten with a 10.5" Stainless Steel Precision .300 BLK Barrel, Nickel Boron BCG and high-end furniture). Each firearm is purposefully made for those in maritime or other environmentally harsh conditions.

OUTERWILD proudly designs, engineers, manufactures and assembles our products in Lake Zurich, Illinois. Our modern and cutting-edge manufacturing facility is driven by a workforce of robots and automated cells including our fully automated robot-driven barrel drilling and reaming cell, our barrel profiling and chambering cell, our carrier cell, our upper receiver, and lower receiver cells, and our bolt and gas key cells. Working in concert with these fully automated robots and feeding devices are our technical experts in our QC lab with their integrated quality control and measurement protocols for each component produced. Our synergetic manufacturing processes allow us to turn out high-quality products at low relative costs to our customers, who like us, take great pride in 100% American-made products.
