

Christensen Arms to Exhibit at 2023 SHOT Show

Gunnison, Utah – (January 9th, 2023) Christensen Arms, manufacturer of state-of-the-art precision firearms and carbon fiber barrels, is proud to announce they will be exhibiting at the 2023 SHOT Show, one of the firearms industry's most highly anticipated events of the year. The 45th annual Shooting, Hunting and Outdoor Trade Show (SHOT Show) will be held Tuesday, January 17th to Friday, January 20th in Las Vegas, Nevada at the Venetian Expo Center and Caesars Forum.

As one of the most prestigious trade shows in the world, the SHOT Show exclusively hosts and caters to professionals in the shooting, hunting and outdoor industries. This year, Christensen Arms will showcase their state-of-the-art firearms, accessories and components. The highlights will be Flash Forged Technology (FFT) and the Modern Hunting Rifle.

If you are planning to attend the SHOT Show, please stop by the Christensen Arms booth #11816 to see all the best-in-class firearms and more that they have to offer.

[Flash Forged Technology](#) utilizes an aerospace monocoque shell that eliminates unnecessary internal weight. The result is an FFT-designed stock that is up to a full pound lighter than traditionally manufactured carbon fiber composite rifle stocks – creating a more consistent shooting foundation while reducing user fatigue in the field. FFT is available exclusively on select Christensen Arms firearms.

Introduced in 2022, and now shipping, the Modern Hunting Rifle is versatile, modular and future-focused. Built on an aluminum mini-chassis with V-block bedding, the MHR provides the accuracy of a chassis rifle and the ergonomics of a hunting rifle, all while offering exceptional modularity. Utilizing the all-new FFT technology, the stock, forearm, and grips can be swapped out to create configurations that meet any sport shooting or hunting situation. Whether on the hunt of a lifetime, or ringing steel at the range, the Modern Hunting Rifle will exceed all your expectations.

Dealers interested in carrying Christensen Arms products can stop by the booth to speak to, or make an appointment with, a sales representative to get more information about becoming an authorized dealer or buying direct from Christensen Arms.
