

## **Pinpoint Your Treasure**

*Minelab's new PRO-FIND 40 elevates pinpointer performance with exceptional technology and features.*

**CHICAGO, IL** (July 25, 2023) - Minelab metal detectors have been finding needles in haystacks for nearly 40 years. Likewise, their industry leading pinpointers have been finding *the needle* in the needle stack. And now, pinpointing treasure is further advanced with the new Minelab **PRO-FIND 40**.

Developed for the complete detectorist, the PRO-FIND 40 pinpointer isolates and identifies targets with advanced technology and offers unparalleled performance. Features include increased depth range, adjustable 5-level sensitivity, Rapid Re-tune, ferrous tone ID, high visibility, and handy lost-alarm. With the PRO-FIND 40, discover coins, rings and gold precisely — on land and underwater — with remarkable depth and speed, and with a 20 hour battery life.

### **INCREASED DEPTH**

Finely tuned algorithms and circuitry deliver a solid increase in detection depth by 10% (compared to PRO-FIND 35) making PRO-FIND 40 Minelab's deepest and most accurate pinpointer on the market.

### **ADJUSTABLE SENSITIVITY**

Five sensitivity levels enable you to precisely adjust for maximum depth and minimum noise in all ground conditions.

### **LIGHT, SOUND & VIBRATION**

Audio tones and vibration intensify as the probe approaches the target making recovery easier, especially underwater. A handy LED flashlight lets you operate and identify objects in low light.

### **WATERPROOF**

The PRO-FIND 40 is fully waterproof down to 10-feet (3 meters)

### **RAPID RE-TUNE**

Rapidly re-tune your PRO-FIND 40 to suit your environment at the press of a button, minimizing interference in challenging ground conditions.

### **FERROUS TONE ID**

Two different responses help identify ferrous junk from non-ferrous treasure.

### **DIF TECHNOLOGY**

DIF significantly reduces interference with an operating detector when PRO-FIND 40 is switched off.

### **LOST ALARM**

PRO-FIND series pinpointers feature a lost-alarm that sounds after a period of inactive use. This makes it easy to locate your forgotten PRO-FIND 40, even in long grass, so you never leave it behind.

### **ULTIMATE RELIABILITY**

Coil design advancements, algorithm tuning and the new Rapid Re-tune feature make the PRO-FIND 40 the most reliable pinpointer ever. This means you can trust every signal and retrieve targets with ease.

PRO-FIND 40 Includes:

- PRO-FIND 40 pinpointer with speaker and LED flashlight
- Holster
- Lanyard
- 9V PP3 battery
- Multi-language instructions
- 2-Year Warranty

MAP Price \$139
