

ARMUSA SHOTGUN AMMUNITION

Making Premium Shotshells, It's What We Do...

ARMUSA'S founder and 2-time Olympian Miguel Marina Aróstegui was among Spain's most awarded clay target competitors, including winning countless international and world titles on the live bird circuit and competing in the '68 and '72 Summer Olympics.

His passion for producing quality ammunition for the serious competitor carries on, with his son, José Marina, who's determined to continue the legacy. It's no wonder that the ARMUSA brand is highly esteemed in the world of competitive shotgun sports. That's a fact.

Today, we continue to offer the very best in quality and performance without compromise, BECAUSE IT'S WHAT WE DO.

Family-owned since 1960, ARMUSA has been supplying elite shooters and hunters with premium shotshells for more than 60 years. ARMUSA is one of the last independently owned manufacturers remaining in Europe.

Made in the heart of the Basque Country
