

Active Violence Emergency Response Training

When active violence occurs, seconds count, and you can't always wait for EMS to arrive. AVERT was developed by law enforcement, security and medical experts to empower everyone to become an immediate responder by learning active shooter response and emergency bleeding techniques.

Two Ways to Get AVERT

Become an Instructor

You can become an Authorized AVERT Instructor in as little as one day. Our blended Instructor Development Course (IDC) provides the training and components you need to start teaching AVERT.

We Bring Training to You

An authorized AVERT instructor will travel to your facility to train your team. Students will first receive online training introducing them to the subject before the dynamic instructor-led session.

TAC+PAC Bleeding Control Kits

Our unique TAC+PAC kits are designed with the sole purpose of helping to save lives. Everything inside our portable kits are allergen-free with no expiration date, so they are always ready when you need them.
