

NVI/SAC-V2-31

Sacrificial Window Lens, PVS-31A/GPNVG, V2

OVERVIEW:

Manufactured out of optical grade, anti-reflective material, this sacrificial window acts as a barrier to protect your expensive optics from projectiles, chips, and scratches. We have redesigned and perfected the NVI/SAC-V2 with superior optical quality, UTM-rated 5.56 projectile protection, and additional compatibility for PVS-31/GPNVG-18 systems. This unit has been tested to protect NVG lenses from UTM/training munition rounds at minimum engagement distance, all the way down to point-blank (1 inch from muzzle) range without failure. This product is Berry Compliant and Made in the USA.
