

FOR IMMEDIATE RELEASE

Introducing the revolutionary PathoShield® TPU Coated Webbing: The Ultimate Solution for Military, Hunting, Sport Fishing, and Marine Applications

Masson Inc., a leading innovator in advanced textile solutions, is excited to introduce our cutting-edge product: PathoShield® TPU Coated Webbing. This revolutionary webbing is set to redefine the standards of performance in military, hunting, sport fishing, and marine industries.

PathoShield® stands as a testament to our commitment to providing high-quality solutions that meet the demanding needs of our customers. Designed with precision and crafted with excellence, this innovative webbing offers an unparalleled combination of strength, durability, and versatility. Unleash your adventurous spirit with complete peace of mind. This cutting-edge technology provides unmatched protection against the elements.

Key Features of PathoShield® TPU Coated Webbing:

- 1. Unmatched Durability:** Built to withstand extreme conditions encountered in military operations and outdoor activities such as hunting and sport fishing.
- 2. Enhanced Protection:** The TPU coating acts as a barrier against water, UV rays, abrasion, chemicals, and other hazardous elements commonly found in marine environments.
- 3. Weldable Construction:** The weldable nature of the webbing ensures seamless integration into various applications without compromising its structural integrity.
- 4. Superior Comfort:** Despite its exceptional strength characteristics, PathoShield® remains lightweight for maximum comfort during extended wear.

Designed to withstand even the toughest environments, our revolutionary TPU coated webbing ensures ultimate durability and protection.

Whether you're out in the field or on the water, PathoShield® has got you covered. It's time to take your adventures to a whole new level of resilience.

With its wide range of applications — from tactical gear to straps for boat covers — PathoShield® is poised to become an indispensable asset across
