Nite Ize Engineers INOVA Rechargeable Flashlight with 1000-Meter Range

BOULDER, Colo. – June 19, 2023 – [Nite Ize®](#), a leading manufacturer of innovative solution-based products, today launched the INOVA® T4R® Long Throw Rechargeable Tactical Flashlight. Available at retail in summer, the cradle-mounted flashlight features an impressive 1,000-meter beam to shine through critical missions and extreme conditions.

“The new INOVA T4R Long Throw Flashlight is a true triumph of engineering,” said Rick Case, Nite Ize founder and CEO. “With an effective range up to one kilometer, it’s primed to be a critical tool for rescue teams and beyond.”

INOVA T4R Long Throw Rechargeable Tactical Flashlight:

This weather-resistant (IPX4) and drop-tested flashlight is primed to perform when users need it most, providing a far-reaching 1,000-meter beam distance with 1220 lumens. No detail was overlooked in its construction with a precision-engineered aerospace-grade aluminum body, military-spec Type III hard coated anodized finish, protected optical system and aggressive knurling pattern for positive grip. Its mid-body switch activates six modes, running up to 112 hours on low and recharging in four hours in its included mountable charging cradle. The kit comes complete with USB AC and DC power supplies, international plug adapters and its included rechargeable battery that can also be removed and charged directly via USB-C cable (not included). MSRP \$224.99
