PRESS RELEASE

Solar Manufacturing Ships Furnace to Midwest Firearms Manufacturer

Sellersville, PA, June 28, 2023 – Solar Manufacturing recently shipped a vacuum furnace to a firearms manufacturer based in the Midwest United States. The furnace will primarily be used to anneal firearm components.

The Model HFL-5748-2IQ furnace features a graphite insulated hot zone of 36" x 36" x 48" deep with a weight capacity of 5,000 lbs., and maximum operating temperature of 2400°F. Solar Manufacturing also assisted with the furnace installation.

Adam Jones, Midwest Regional Sales Manager for Solar Manufacturing, stated, "This was the first vacuum furnace our customer had purchased for their in-house heat treating. We were awarded the project based on our ability to demonstrate our furnace technology would successfully process their parts with the utmost in quality and reliability."

Solar Manufacturing designs and manufactures a wide variety of vacuum heat treating, sintering, and brazing furnaces and offers replacement hot zones, spare parts, and professional service. To learn more about Solar Manufacturing contact Pete Reh, VP of Sales, at 267-384-5040 x1509, or via email pete@solarmfg.com, and visit us at www.solarmfg.com.
