PRESS RELEASE

Introducing 2 NEW Wrenches by Luth-AR! The Armorer Wrench and The AR Flat Wrench: The Ultimate Tools for Firearms Enthusiasts

Buffalo, MN – Luth-AR, renowned leader in the firearms industry, proudly unveils its latest innovation: the AR Armorer Wrench. This versatile tool is designed for AR-15 firearms maintenance and customization.

Crafted with meticulous attention to detail, the **AR Armorer Wrench** from Luth-AR is a versatile and indispensable companion for every firearm enthusiast. It combines durability, functionality, and ease of use to deliver unparalleled performance. This wrench effortlessly handles a wide range of tasks, including barrel nut installation and removal, castle nut tightening, flash hider installation, and more.

Featuring a robust construction, the Luth-AR AR-15 Armorer's Wrench ensures a secure grip and prevents slippage, even in the most challenging conditions. With its ergonomic design users can comfortably maneuver and apply optimal pressure for precise adjustments and maintenance.

The AR-15 Armorer's Wrench is compatible with most AR-15 platforms, ensuring broad applicability across the industry. Whether you are a professional gunsmith or a passionate hobbyist, this tool is a must-have addition to your arsenal.

MSRP \$63.95, Dealer, Quantity and OEM pricing is available upon request.
