

FOR IMMEDIATE RELEASE

Victory VCI® Gun Bags: Tactical Rust Prevention for Firearm Storage & Transport

Houston, TX – July 21, 2025 — Victory Plastic, Inc., a trusted manufacturer of military-grade corrosion control solutions, proudly introduces Victory VCI® Gun Bags, engineered for professional firearm storage and tactical-grade protection. Designed to deliver up to 10 years of rust prevention, these American-made bags provide zero-maintenance performance—no oils, desiccants, or cleanup required.

Built with advanced Vapor Corrosion Inhibitor (VCI) technology and aligned with MIL-DTL-22020E, Type 1 standards, Victory VCI Gun Bags form a dry, invisible barrier that shields firearms from moisture, oxidation, and corrosive environments—ensuring long-term preservation both in storage and transit.

“Victory Gun Bags redefine firearm protection,” says Nicole Cleary, Owner of Victory Plastic. “They’re built to preserve firearms with proven performance—without the mess or maintenance of traditional solutions.”

Tactical Features:

- **Military-Grade Rust Protection** – MIL-PRF-22019E approved VCI film with MIL-DTL-22020E, Type 1 specifications.
- **Chemical Free Preservation** – Non-toxic and lead-free for safe, long-term firearm storage.
- **Transport-Ready Design** – Ideal for safes, armory drawers, gear cases, and discreet field kits.
- **Impulse-Friendly Packaging** – Compact, shelf-ready formats for accessory aisles and bundling opportunities.
- **U.S.A.-Made Durability** – Designed, manufactured, & assembled in America using sustainable materials.

Built for Tactical Retail & Institutional Channels

Victory VCI Gun Bags support high-demand buyers and wholesale partners, including:

- Tactical equipment dealers
- Law enforcement suppliers
- Defense contractors & institutional purchasers

Retail Packs Optimized For:

- Checkout counter placement
