

# FRONTSITE

## INDUSTRY CHANGING APP LAUNCHING SOON

*The only way to beat the social media industry is to create your own!*

### **Welcome to the Revolution!**

Frontsite is an app created by gun enthusiasts, for gun enthusiasts and the outdoorsman. It is the first and only app of its kind that combines the search engine Duck Duck Go, and a social media platform, where the firearm industry and the gun community can be free to post, connect, and discuss everything firearms or outdoors related, without the fear of being throttled, shadow banned, or removed from that social media platform. AND ITS FREE!!

### **About Frontsite**

Whether you are searching for a Gun Store, Gear Store, FFL, Training Organization, Range, Gunsmith, Fishing Charter or guided hunting property, Frontsite will have it on the app! You can also rate businesses or follow users or vendors to ensure you never miss an event again!

# FRONTSITE

## **For Users:**

Users are free to search for any of the previously listed businesses to better their skillset, learn new skills, or get new equipment. They can also post on to the social media platform and comment directly on other user's posts to learn more or discuss techniques or equipment currently used in the industry. If a user follows another user or if they follow a vendor page, every time that user/vendor posts something, that post will come up in the user's "following feed." That way, you will never miss a sale, event, training day etc. No more algorithms, no more throttling information like "other" social media platforms.

## **For Vendors:**

Vendors can post as often as they want, and when they do, they can rest easy knowing that every follower they have will see exactly what they post, without worrying about who may or may not see their content. So if you post a sale, a class, an event or anything else, EVERYONE that follows you will see it. The best part, its FREE!

Many businesses pay exuberant fees for marketing advertisements to companies that hate the firearms industry, and they may get sub-par results. Marketing with Frontsite will put you directly in front of everyone that wants to see what you have to offer as a business, because everyone on Frontsite is a part of the Firearms Community. If your company is looking for targeted ads, look no further than Frontsite!

**Welcome to Frontsite!**
