This AR-15 Stock is the Best Accessory for Your Glock 19. Yes, You Read That Right.

December 3, 2024

Featuring On-Board Glock Magazine Storage

When considering upgrades for your Glock 19, a few things typically come to mind: a holster, extended magazines, or perhaps a light. But what if there was an accessory for your AR-15 that could transform how you handle, carry, and reload your Glock 19?

Enter the 1Seven Stock from Ghoststar Tactical – an innovative AR-15 stock designed to be the ultimate Glock upgrade. With a unique integrated cavity specifically crafted to hold a Glock magazine, the 1Seven Stock goes beyond standard modifications, adding functionality and versatility in ways that other stocks can't match. Let's dive into why this "Glock stock" is unlike any other accessory and why it should be on every Glock enthusiast's radar.

Why Consider a Stock with a Magazine Cavity for Your Glock?

The 1Seven Stock from Ghoststar Tactical doesn't just give you the stability benefits of a traditional rifle stock; it's designed with a built-in cavity that securely holds an extra Glock magazine. This feature gives you the confidence of knowing you have a spare magazine at hand, streamlining your reloads and enhancing your preparedness, whether you're on the range or in a high-stress scenario.

Key Benefits of Ghoststar Tactical's 1Seven Stock for Your Glock

1. On-Board Glock Magazine Storage

The standout feature of the 1Seven Stock is its integrated magazine cavity. This cavity is specifically crafted to house a Glock magazine, keeping it secure and easily accessible. Not only does this feature streamline your reload process, but it also means you're never caught without an extra magazine close at hand. It's ideal for anyone who wants to keep their setup compact, organized, and ready for quick action.

2. Enhanced Stability and Capability

Like any quality stock, the 1Seven provides increased stability, giving you better control over each shot. This is invaluable for all shooters. With the added stability of a rifle-style stock and the added magazine storage, the 1Seven Stock offers added capability vs traditional AR-15 stocks.

3. Perfect Balance of Portability and Functionality

The Ghoststar 1Seven Stock doesn't add unnecessary bulk to your rifle. It retains a compact, ergonomic design while adding the unique ability to carry an extra Glock magazine.

4. High-Quality, Durable Construction

As with all Ghoststar Tactical products, the 1Seven Stock is built to last. Made from nearly indestructible, military-grade, glass-filled Nylon polymer by DuPont, it's designed to withstand regular use and maintain its functionality over time. You'll feel confident knowing this stock can handle the demands of heavy use while keeping your rifle lightweight and agile.

5. Effortless Installation and Versatility

Ghoststar Tactical has designed the 1Seven Stock for easy installation, allowing both seasoned shooters and beginners to upgrade their AR-15 without hassle. With its intuitive design, you can quickly add it to your setup and be ready to take advantage of its innovative features.

The 1Seven Stock vs. Other "Glock Stock" Options

While other stocks might offer basic support and stability, the 1Seven Stock is the only option that integrates magazine storage into its design. This extra capacity can make a significant difference in situations where quick reloads are crucial.

Is the 1Seven Stock Legal?

Before adding the 1Seven Stock to your Glock, ensure you understand your local regulations. In some jurisdictions, adding a stock may change the firearm's classification, so check the laws in your area to remain compliant.

Experience the 1Seven Advantage: Transforming Your Glock with On-Board Magazine Storage

With the Ghoststar 1Seven Stock, you get more than just enhanced accuracy and stability. The integrated magazine cavity changes the game for Glock owners, allowing for a quick, easy reload while maintaining a compact and organized setup. Imagine the benefits of carrying an extra magazine directly within your stock, knowing you'll always have backup rounds right where you need them.
