

Built by Veterans. Proven in the Field.

- Designed by veterans and tested in real-world conditions
- Comfortable for long wear without the irritation of traditional slings
- Keeps your weapon secure, ready, and both hands free

The Triangle WRS Heavy

The Triangle WRS Heavy is designed for long guns like the M21, M24, and SR25. Added straps connect the D-rings to the belt for better balance and safety, preventing the shoulder section from shifting.

TRIANGLE WEAPON RETENTION SYSTEM

**SHOT SHOW 2025 MOST
SCANNED "NEW PRODUCT"**

Components

Retractor

Sits on the belt, attaches to firearm to maintain barrel control when at rest

The Triangle

WRS Sling

Sling system, ambidextrous attachment for the stock of the firearm

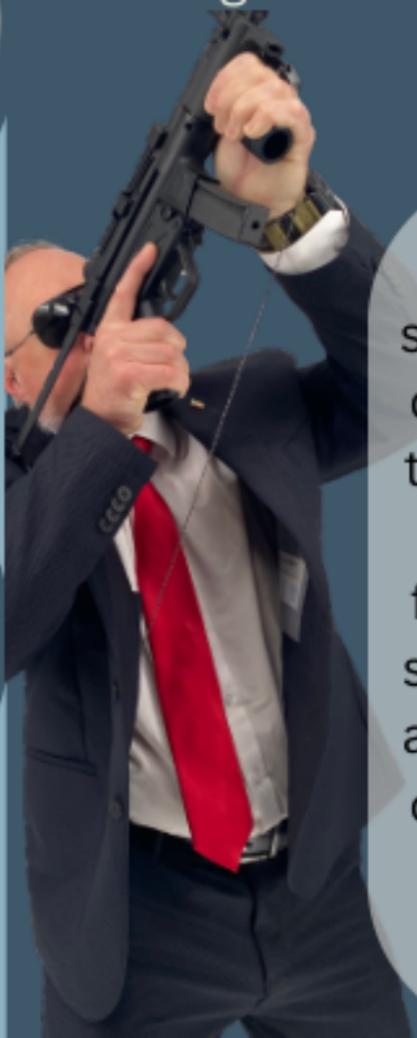

Plate Carrier Adapters

Attaches to the WRS sling system to allow for plate carrier use

Comfort, Readiness, and Discretion - All in One Sling

Engineered for men and women in blue, this sling system delivers unmatched comfort, security, and quick access. With a simple click of the retractor lock, your firearm stays safely “holstered” yet instantly ready. It’s streamlined design allows easy movement in and out of patrol vehicles while keeping both hands free to subdue suspects without losing control of your weapon

Ideal for executive security professionals or anyone who needs to maintain a discreet profile. This system fits seamlessly under suits and formal wear, allowing for effortless concealment without sacrificing readiness or performance.
