

FOR IMMEDIATE RELEASE

D&M Holding Company to Highlight Ammunition and Energetics Manufacturing Capabilities at the 2026 SHOT Show

TAMPA, FL – D&M Holding Company, Inc. (D&M), the global leader in delivering complete solutions for ammunition, primer, and propellant manufacturing facilities, will be highlighting its extensive global capabilities at the 2026 SHOT Show in Las Vegas, January 20-23.

The D&M team will be meeting with customers and potential customers from throughout the world as the company continues to expand its international footprint. Recent partnership announcements include D&M's joint venture with the Ukrainian Defense Industry Joint Stock Company (JSC) to produce specialty chemicals in the United States to address the critical shortage of propellant used in the production of ammunition for the Ukrainian defense forces. Prior to this project, D&M built a multi-million-dollar ammunition facility in Ukraine for the Ukraine Defense Industry and has other projects in the works there, including a primer facility.

D&M and DEMCO Holding Company, a Saudi Arabian Defense company, recently signed a strategic partnership agreement to collaborate to deliver single-base and double-base propellant factories as well as a modern primer manufacturing facility to support Saudi Arabia's defense industrialization goals. D&M has additional projects underway internationally.

"Demand continues to increase globally for reliable supplies of ammunition, primer, and propellant in both the defense and sporting sectors," said Dan Powers, President and CEO, D&M Holding Company. "As the only company in the industry that offers comprehensive solutions for the manufacture of all ammunition components including ammunition factories, primer factories, and propellant factories, D&M is well positioned for continued growth. We look forward to meeting with many of our current partners at the SHOT Show and to discussing our state-of-the-art manufacturing solutions with potential new customers as well."

D&M Holding Company and White River Energetics are located in Booth #75127 in the Caesar's Forum section. To schedule a meeting during the show, email sales@dmholding.com.

About D&M Holding Company and White River Energetics

D&M Holding Company, Inc. (D&M) is an ammunition and energetics engineering company headquartered in Tampa, Florida, with additional operations in Cabot, Arkansas. D&M specializes in the design and manufacture of ammunition and energetics equipment and turnkey factories for customers worldwide. White River Energetics, LLC (WRE) is a wholly owned subsidiary of D&M, located in Des Arc, Arkansas, with the objective of manufacturing energetics for the ammunition industry.
