

COMPANY PROFILE

Chargeurs PCC Fashion Technologies is the global leader in the production of fabrics, interlinings, and inner components for the apparel industry, working alongside the world's most prestigious brands: from luxury, ready-to-wear and tailored garments to sportswear and athleisure.

The company includes the Shirting Division, which upholds the tradition of Swiss excellence in premium shirting fabrics through iconic brands, and the Coating Division, represented by Senfa Cilander, which specializes in coating and technical textiles.

Chargeurs PCC is part of Compagnie Chargeurs Invest, a diversified international holding company, which operates in high-value-added niche markets. With over 150 years of history, the Group listed on Euronext Paris, counts more than 2.500 employees across five continents.

Since 2021, Gianluca Tanzi has been Chairman and CEO of Chargeurs PCC and Chairman of Chargeurs Luxury Materials.

In 2024, Chargeurs PCC acquired two strategic business units of the historic Swiss company Cilander, internationally renowned for its expertise in high-end fabrics and finishing solutions for complex materials. Through this acquisition, the company integrated in the Shirting Division the prestigious Swiss shirting brands ALUMO, Brennet and Eugster & Huber. At the same time, the Senfa was renamed Senfa Cilander, and its portfolio expanded to include high-tech textiles for the outdoor and innovative finishing options.

CHARGEURS PCC FIGURES

In 2024, Chargeurs PCC recorded a turnover of €202.8 million. The company operates on a global scale through 10 production sites, 20 testing laboratories, and 40 commercial offices and distribution centres. Its team of over 1.000 employees serve more than 7.000 clients in 90 countries, with customer service available 24 hours a day, 7 days a week.

INNOVATION, QUALITY, RESPONSIBILITY AND TAILOR-MADE SERVICE

Chargeurs PCC is synonymous with technical innovation, uncompromising quality, sustainable development, and customized service. Through a global network of R&D centres, the company works closely with its partners to design tailor-made solutions, within a business model that is ethical, responsible, and forward-thinking.

The synergies between Chargeurs PCC, the Shirting Division and Senfa Cilander enable a cross-selling approach that ensures a comprehensive and integrated offering, optimizes the supply chain, reduces environmental impact, and enhances research and development activities.

FASHION TECHNOLOGIES

INTERLININGS: THE SOUL OF ANY GARMENT

Interlinings are the soul of any garment. They provide shape, support, and durability, while enhancing the performance of the outer fabric. As such, they are key components in haute couture, tailoring, shirting, and technical clothing.
