BARSKA Introduces Three New Biometric Keypad Fire Resistant Safes at SHOT Show 2026

Models AX14196, AX14198 & AX14200 | Visit BARSKA at Booth #15038 – Level 2, Venetian Expo

Pomona, CA – BARSKA, a trusted manufacturer of firearm safes, tactical gear, and optics, proudly announces the launch of three new Biometric Keypad Fire Resistant Safes designed to meet the needs of firearm owners, dealers, and security-conscious professionals. Combining fast biometric access, ETL-verified fire protection, and rugged steel construction, these safes are ideal for securing handguns, ammunition, long guns, and critical valuables.

SHOT Show attendees are invited to see the safes in person at Booth #15038 on Level 2 of the Venetian Expo.

Models and Features

0.88 Cu. Ft. Biometric Keypad Fire Resistant Safe – AX14196

- **Capacity:** 0.88 cu. ft. (25L)
- **Access:** Biometric fingerprint (up to 100), keypad, 3 mechanical keys
- **Fire Rating:** ETL-verified 1 hour
- **Construction:** 17-gauge zinc-plated steel, fire-resistant composite door (up to 76mm)
- **User-Friendly:** Silent mode, lockout system, removable top tray, mountable, 4 AA batteries included

Designed for quick access and reliable protection, this compact safe is ideal for bedside, office, or retail environments.

0.88 Cu. Ft. Biometric Keypad Fire Resistant Safe – AX14198

- **Capacity:** 0.88 cu. ft. (25L)
- **Access:** Biometric fingerprint (up to 100), keypad, 3 mechanical keys
- **Fire Rating:** ETL-verified 1 hour
- **Construction:** 17-gauge zinc-plated steel, fire-resistant composite door
- **User-Friendly:** Silent mode, lockout system, removable top tray, mountable, 4 AA batteries included

Purpose-built for gun owners and dealers requiring fast access, organization, and verified fire protection.

1.72 Cu. Ft. Biometric Keypad Fire Resistant Safe – AX14200

- **Capacity:** 1.72 cu. ft. (49L)
- **Access:** Biometric fingerprint (up to 100), keypad, 3 mechanical keys
- **Fire Rating:** ETL-verified 1 hour
- **Construction:** 15-gauge zinc-plated steel, reinforced fire-resistant door up to 96mm thick, 4 live + 2 fixed 28mm bolts
- **User-Friendly:** Silent mode, lockout system, removable/adjustable shelf + drawer, mountable, 4 AA batteries included

Engineered for larger firearm storage and multi-item organization, this safe offers premium protection without sacrificing quick access.

Certified Fire Protection

All three safes are **ETL-tested and fire-rated for one hour**, meeting the following standards:

- **Internal temperature < 350°F for 60 minutes**
- **External exposure up to 1700°F**

This ensures firearms, documents, and valuables remain safe in emergency conditions.

See Them at SHOT Show 2026

BARSKA invites all attendees to visit **Booth #15038, Level 2 – Venetian Expo** for hands-on demonstrations of all three safes, alongside our full lineup of firearm safes, optics, and tactical gear.
