Combat Textiles Marks 3 Years of the Cordura® Tactical Grip Series — The First Grip System Made From Cordura® 1000D

Gilbertsville, PA — Combat Textiles proudly celebrates the three-year anniversary of its Cordura® Tactical Grip Series, first launched in November 2022 shortly after the company's founding.

Built from military-grade Cordura® 1000D with waterproof, scratch-resistant, breathable, and infrared-reflective properties, the Tactical Grip Series series continues to set the industry standard for durability, abrasion protection, and all-conditions firearm control. Performance is further enhanced with 3M 300LSE and 9472LE adhesives, ensuring long-lasting adhesion even through heat, moisture, and constant handling.

Early user feedback calls them “the best grip I have ever used.”
