Combat Textiles Expands U.S. Manufacturing of Cordura® Grip & Wrap Solutions

Gilbertsville, PA — Combat Textiles, established in September 2022, announces expansion of its U.S. manufacturing capabilities to meet growing demand for its Cordura® 1000D-based grip and protection systems.

Engineered from Berry Compliant Cordura® 1000D and secured with 3M 300LSE and 9472LE adhesives, the company's products provide long-lasting adhesion and durability through sweat, heat, weather, and continuous handling. Designed for pistols, rifles, weapon lights, optics, and accessories, the product line continues to set a new industry standard.

User feedback highlights exceptional performance, stating the grips are "one of the best on the market."
