

MOLSECT

Brand Profile

MOLSECT Knives is a unique knife brand
Since 2024

“

About Us

MOLSECT Knives is an innovator exclusively dedicated to premium knives.

Rooted in our precision in-house manufacturing facility, we fuse industrial-grade production standards with avant-garde design philosophy, maintaining full autonomy from concept to mass production.

With rapid iteration capabilities and relentless pursuit of aesthetics, we consistently deliver groundbreaking creations that balance collectible value and functional performance.

Core Advantages

- **End-to-End Quality Control through fully in-House Production**
- **Rapid new product development and inexhaustible design inspiration**

We operate our own factory with mature, hands-on production experience.

At the same time, we boldly introduce knives with avant-garde aesthetics.

Bringing a fresh and unexpected chemistry to the market.

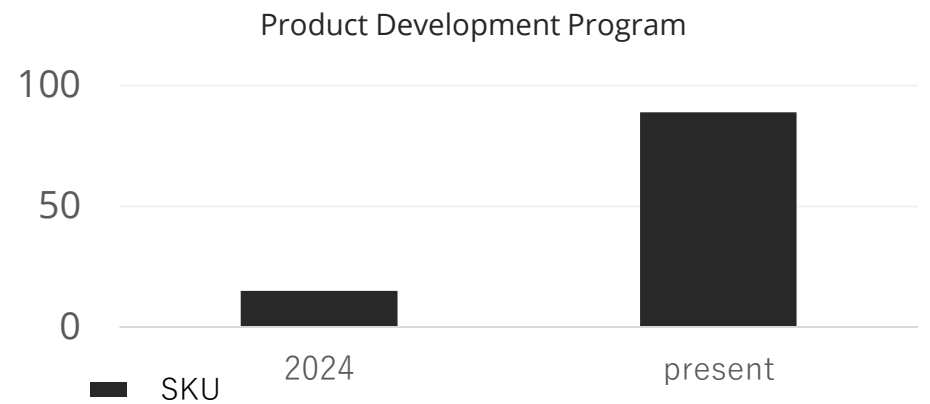

Agile Development System

Our Creative Passion

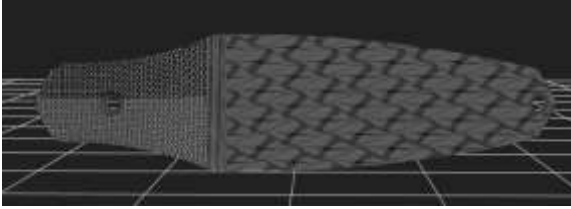

We've been running full speed into new product development since October 2024, Introduced 15+ models and 70+ SKUs in just two months!

Product Development System

MUC-455 Yuppie

- 3D modeling that incorporates innovative structures, three-dimensional carving elements.
- Rapid-response 3D printing demonstrates feasibility.
- Precision CNC machining makes every step of the way a reality.

- Thin profile, smooth lines, wonderful Bowie blade.
- Multiple versions launched at the same time, 14C28N + aluminum handle, S90V + titanium handle, limited edition launched crystal titanium damascus handle.

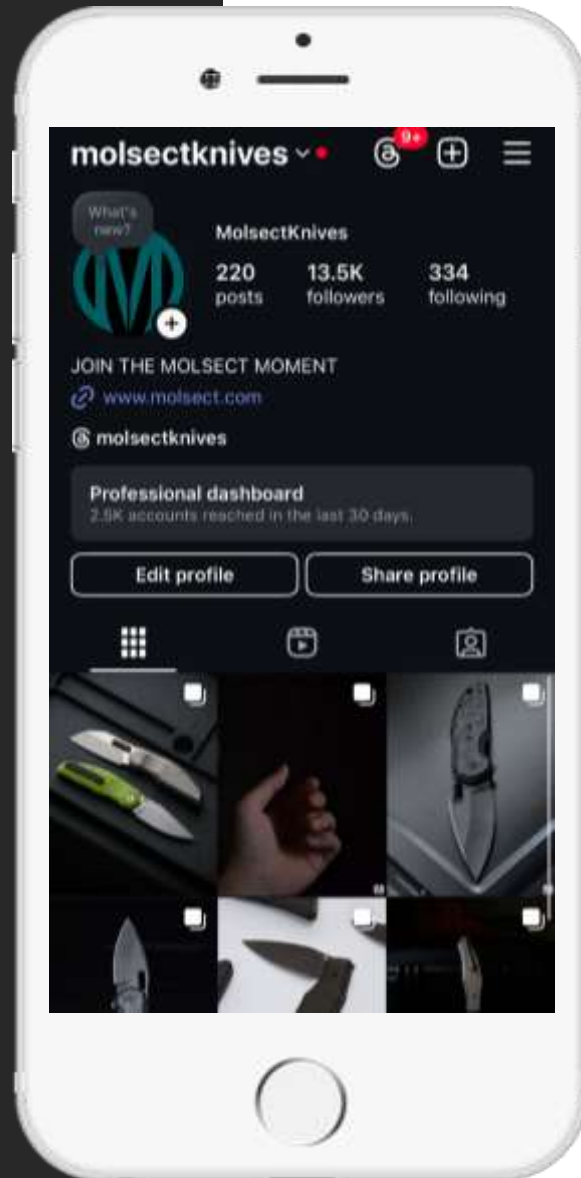

Growth of influence

As a new brand, we remain both humble and passionate.

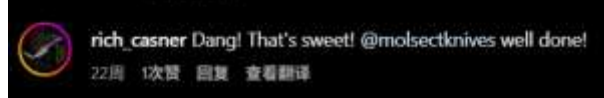

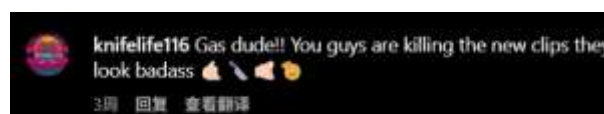

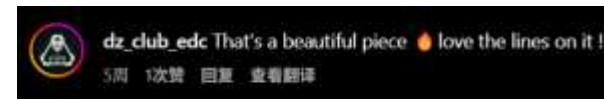

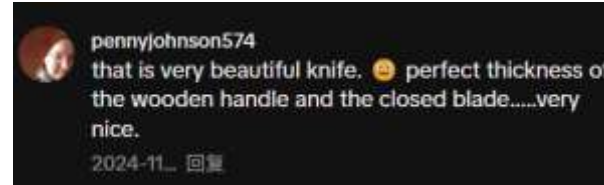

We understand that knife lovers demand quality and design.

Our sincere attitude and dedication have resonated with many of those we admire.

We are honored that they've chosen to witness and support our growth.

Voices of Fans

What's next for MOLSECT

- 1 New Design**

There is no doubt that we will continue to capitalize on the strengths of our product development to make knives that don't follow the crowd or the trend and have our own aesthetic.
- 2 New Structure**

We will invest in R&D for the new folder structure in 2025—practical but elegant, is our goal.
- 3 New Conception**

We plan to try to interpret our knives in a “music album” scenario, with a wide range of musical styles and aural sensibilities, and knives as well.

THANK YOU
