FLEX SMART LINK — Next-Gen Serialized NFC Tech Built Into Custom Patches

Accountability. Authentication. Control — with one tap.

Flexsystems USA introduces **FLEX SMART LINK**, the only U.S.-made PVC patches with **embedded, serialized NFC technology** for total asset visibility. Designed for tactical teams, OEMs, training units, and industrial operations, FLEX SMART LINK turns any piece of gear into a **secure, trackable digital asset**.

Not novelty tech. Mission-grade tech.

Rugged, scannable, programmable—and built for field abuse.

What It Delivers

- Unique serialized NFC IDs on every patch or part
- Tap-to-assign tasks, inspections, training logs, and chain-of-custody
- Authentication + anti-counterfeit protection
- Real-time tracking and inventory control
- Durable U.S.-made PVC built for harsh environments

Why It Matters

Know who used what.

Track every issue and return.

Eliminate missing gear.

Upgrade your operations using the smartphones you already carry.

See **FLEX SMART LINK** at **SHOT Show 2026 — Booth #52503**

Exclusive U.S. manufacturer: **Flexsystems USA**
